

# DIY TREAT- DISPENSING DOG TOY

*Recommended for ages 12+*

Is your dog bored? Destructively licking their paws? Chewing everything and anything? We have just the thing to keep them busy and get their brains going! Create this treat-dispensing dog toy for just \$10. With a little help from your parents, you can create this in 10 minutes. Forget the expensive toys at the pet store. These will keep them entertained for hours!

## Materials Needed

- PVC pipe (any size 1-2 inches, not the black pipe!)
- A pair of adapter/screw caps (make sure they match female/male or male/female)
- Slip cap
- Safety glasses, hearing protection, gloves
- Saw to cut PVC (hand saw, miter saw, etc.)
- Power drill
- Drill bit (whatever size you want the food dispensing holes to be)
- Clear PVC glue
- Small piece of sandpaper

*\*\*Note: Use the smaller diameter pipes for smaller toys and bigger diameter pipes for bigger toys.\*\**

## Instructions

1. Cut the PVC pipe to your desired length.
  - a. 4 inches for small
  - b. 6 inches for medium
  - c. 8 inches for large
2. Use the PVC glue to attach the slip cap to one end of the pipe.
3. Use the PVC glue to attach the male adapter to the other end.
4. Screw the cap onto the male adapter.
5. Drill holes into the PVC pipe where desired.
6. Sand the PVC along the cut edges and sand the edges of the holes.
7. Wash and rinse the PVC.
8. Insert treats and watch your pup enjoy their new toy!

*\*\*Note: Keep an eye on the toy before and after your dog plays to make sure there are no breaks.\*\**
