www.lakesanimalfriendship.ca

The more you know about pets, the better guardian you can be. What does it mean to be a guardian? A guardian looks after their pets, meeting their needs and keeping them safe. A guardian shows love and care.

Pets give their guardians wonderful things! They teach you how to be kind and responsible. They show you how to think of others. They give you love, laughter, joy and so much more.

Remember, pets aren't perfect. They're work. Great pets need great guardians. This book is all about being a great guardian and using safe thinking skills. Half of all children under the age of 12 have been bitten by a dog, most often the family dog or a friend's dog.

We want you to have a happy and healthy lifelong relationship with your pets.

Parents! We hope you enjoy this book with your children. Here are some ways to help your child be a good pet guardian and stay safe:

- Model kindness, caring, and respect.
- Involve your children in the care and training of your pets.
- Socialize your young pets by giving them many positive experiences with different animals, people, sounds and situations.
- Supervise your child with any pet, even your own.
- Have your pets spayed and neutered.

Teachers! Check out our web site: lakesanimalfriendship.ca for additional books and resources. Find more inspiration and resources at APHE.org, Latham.org, RedRover.org, SPCA.bc.ca, IFAW.org, Doggonessafe.com, and TheGryphonPress.com. "Before You Were Mine" by Maribeth Boelts is also a treasure to read.

Thank you to all of the children of the Lakes District and their families. Your stories and artwork show how much you love your pets and make them a part of your families. You are superheroes and are inspiring families around the world.

Thank you to Perry, Kaiden, Keira, Joseph, Zoey, Marcus, Carl, Alexa, Mariah, Cameron, Devyn, Fawn, Priscilla, Lucas, Kaylah, Shealeen, Lily, Sabrina, Maria, Cooper, Haven, Kaylee, Hannah and Miranda for the artwork featured in this book.

We are sincerely grateful to all the folks who reviewed and contributed to this book, it could not have happened without you. We thank the Animal Welfare Foundation of Canada and Paws for Hope Foundation for their financial contributions.

Happy, healthy pets are part of happy, healthy families and communities!

What I Need to be Happy and Healthy

Label the five needs.
Give this dog a name!
Write it on the tag and doghouse.

How are the needs of a dog the same as your needs?

What Every Dog or Cat Needs

How many times can you find the word love? _____

What other words can you find?

What I Need to be Happy and Healthy

Label the six needs. Give this cat a name!
Write it on the tag and food dish.

How are the needs of a cat the same as your needs?

What's for Dinner?

Healthy food keeps you and your pets going all day! Some foods like the ones scrambled below can make your pets sick.

Unscramble the words:

E L O C H A C T O _____

R E S I R E C H _____

P E A R G S _____

N O S I N O _____

Dog food doesn't have enough taurine to keep your cat healthy. Cat food has too much fat and protein for your dog.

Read labels and check for XYLITOL. Xylitol is used to sweeten "sugar free" candies, gums and foods. Xylitol is poison to cats and dogs.

Grapes
Onions
Carrots
Oats
Bananas
Blueberries
Cherries
Peas
Chocolate bar
Canned cat food
Broccoli

On this grocery list, cross off the foods that can make your pets sick. The other foods on the list are healthy for dogs and cats to eat.

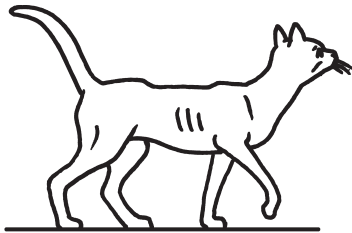

Can you think of other foods that can make your pets sick?

Answers: Chocolate, cherries, grapes, onions

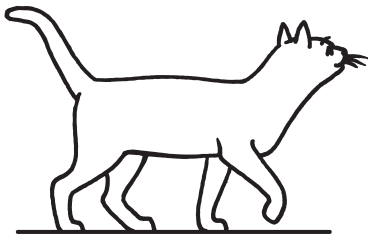

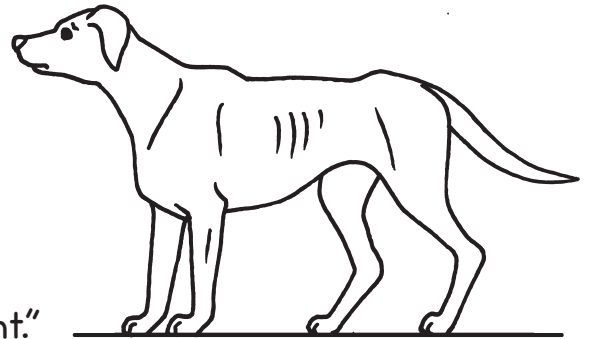

Is your dog or cat getting enough to eat?

If you can easily see or feel your pet's rib bones or hip bones, you need to feed them more. If you can't feel your pet's ribs and hip bones they might be getting too much to eat.

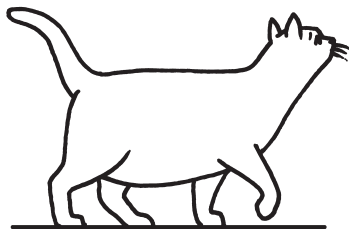

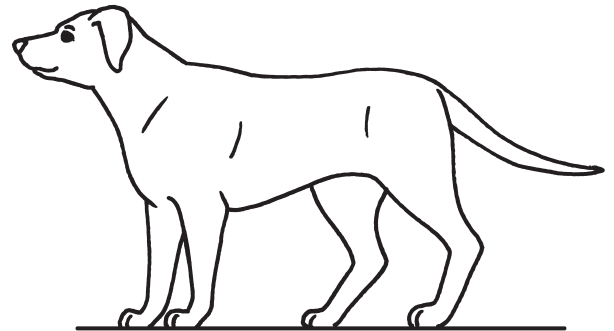

Draw a line to match each picture with the correct description.

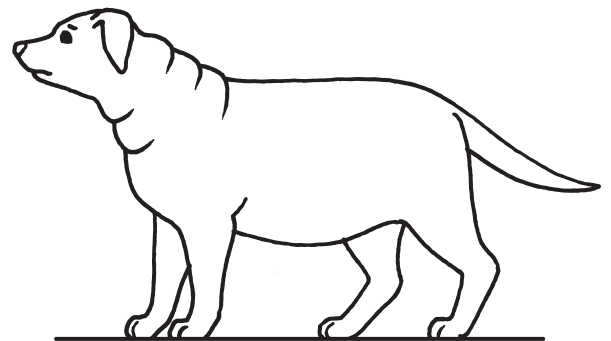

"I am healthy -
my food is just right."

"I am heavy -
less food please!"

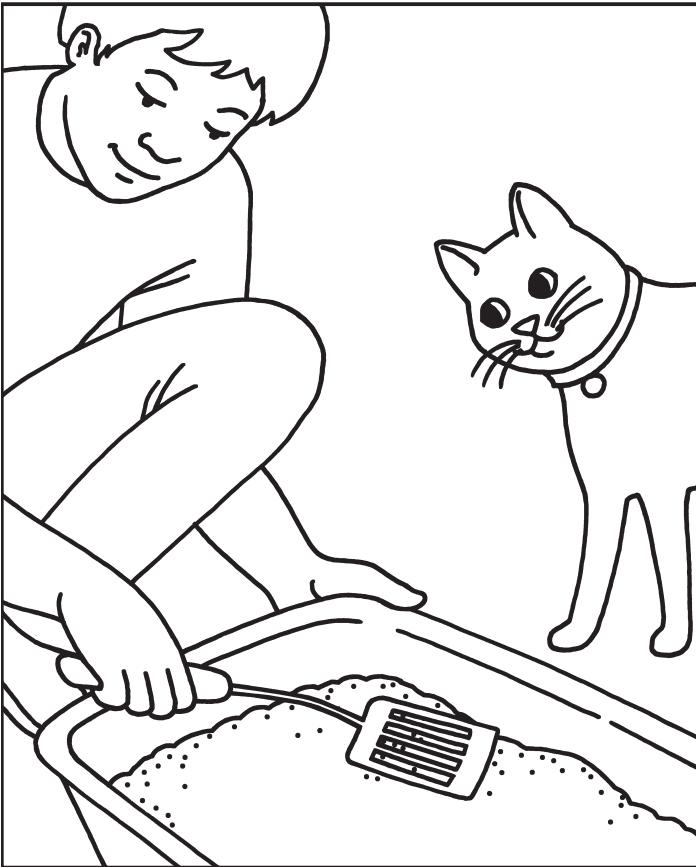

"I am skinny -
I need more food!"

And don't forget, your pets need their water bowls filled every day so they can get a drink whenever they're thirsty. Canned cat food helps make sure your cat gets enough water.

The Scoop on Poop

Just like you and me, dogs and cats poop and pee!

Indoors is the safest place for a cat, and a clean litter box is healthier for everyone. How can you make the litter box a "happy place" for your cat?

Circle true or false:

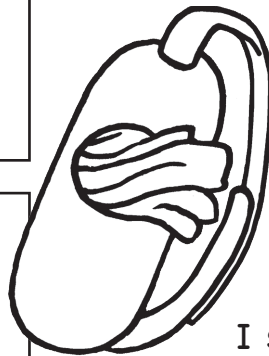

- a) A smaller litter box is better. **True False**
- b) The litter box should be in a quiet place. **True False**
- c) Any kind of kitty litter will work for your cat. **True False**
- d) Scoop the waste out of the litter box every day and wash the box every two weeks with mild soap. **True False**
- e) Don't yell or hit your cat if they poop outside of the box. **True False**

You should have one litter box for each cat PLUS ONE EXTRA. **If you have three cats, how many litter boxes do you need?** _____

Puppies can poop up to five times a day! That's a lot of poop (and pee) to clean up.

Do the math:

6 puppies x 5 poops = _____ poops to clean up EVERY DAY.

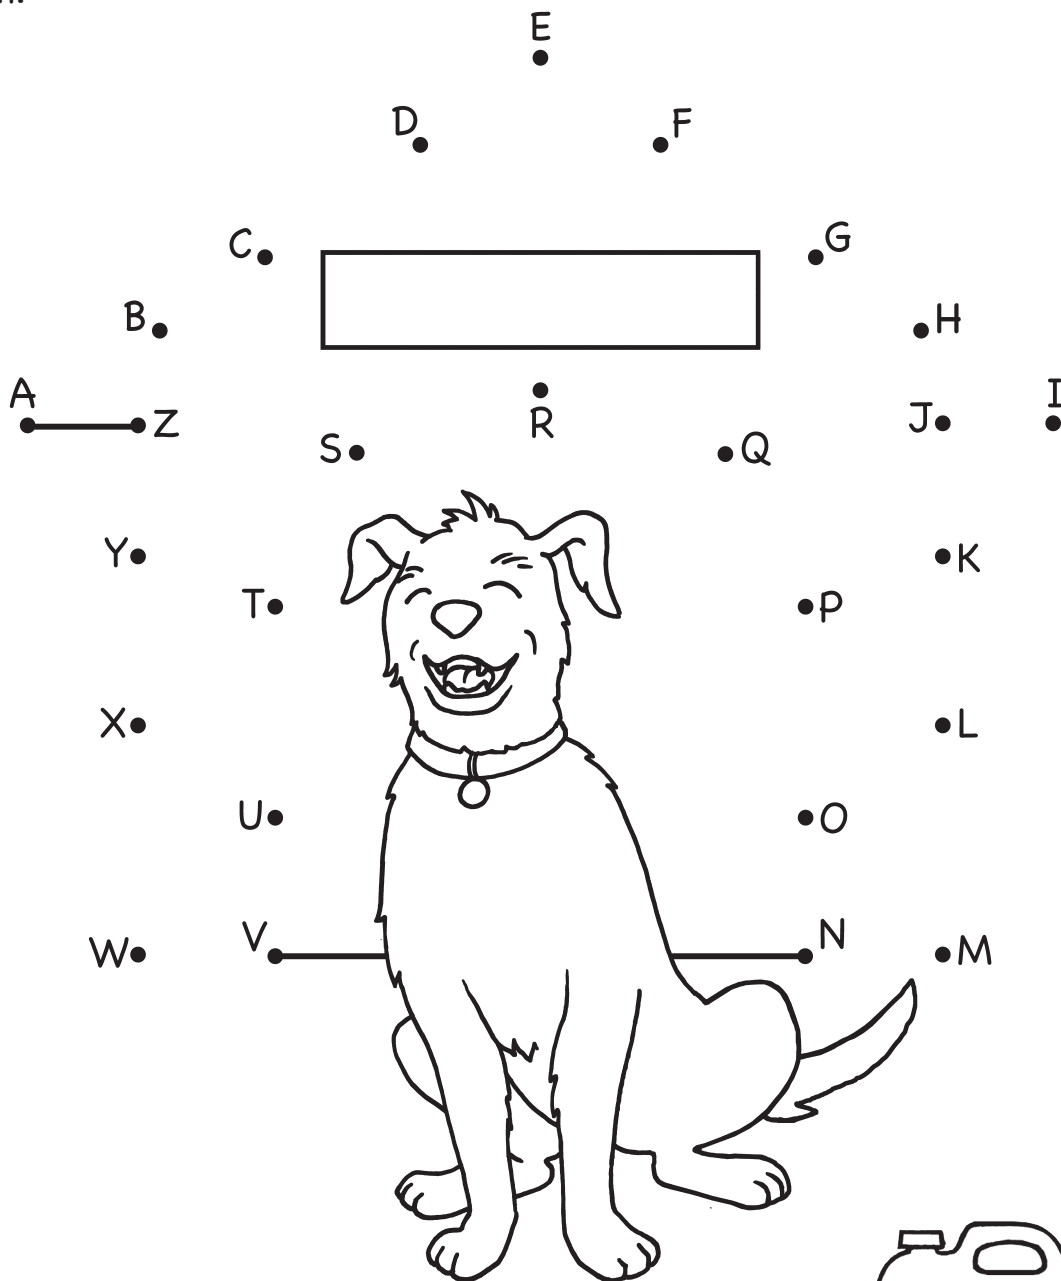

I scoop and toss my dog's poo
Why don't you scoop too?
It only takes a minute
Then nobody steps in it!

(a) False—the bigger the better! (b) True; (c) False—you might have to try a few; (d) True; (e) True—remember to always be kind to your pet. Number of catboxes: 4. Number of puppy poops: 30.

Out of the Cold (and Heat)

When the weather is terrible, where do you want to be? You want to be inside where it's safe and warm. Dogs and cats feel the same way! They may have fur coats but it still feels like wearing a T-shirt and shorts in the snow.

But when they must be outside, they need a place to get out of the winter cold and hot summer sun.

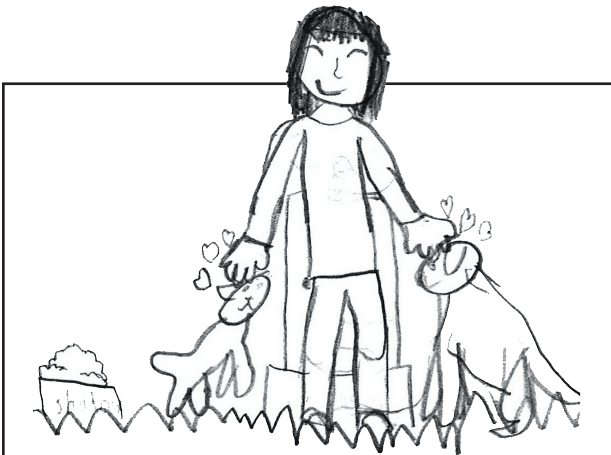

Connect the dots and see why this dog is happy.

Give this happy dog a name.

When it's cold, cats may crawl under a vehicle to stay warm. Check the wheel wells and give the hood a "thump" before the vehicle starts. Make sure that the antifreeze for your vehicles is "pet and kid friendly" PROPYLENE glycol.

Love, Love, Love Your Pet!

Love, Love, Love Your Pets

(To the tune of "Row, Row, Row Your Boat")

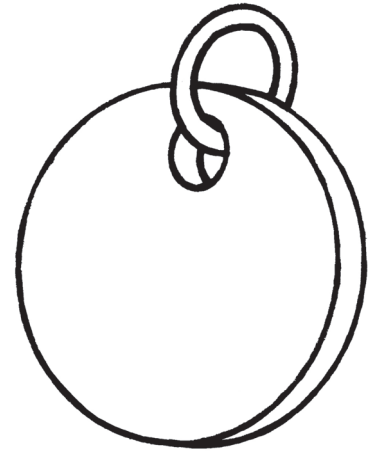

Love, love, love your pets.
Love them every day.
Give them food and water, too.
Then let them run & play.

Love, love, love your pets.
Love them every day.
Train them well and they can tell
It's time to sit & stay.

Love, love, love your pets.
Love them every day.
Don't forget to see the vet
For a neuter or a spay.

Love, love, love your pets.
Love them every day.
A nice warm bed to lay their head
Will keep the cold away.

Love, love, love your pets.
Love them every day.
All life long, you'll keep the bond
They'll love YOU every day.

Another Way to Say "I Love You" and Keep Your Pet Safe

Say "I Love You" with identification (ID) tags on your pets' collars. ID tags can help your furry friends get home safe if they're lost. What goes on the tag? Your phone number, and pet's name.

Fill in the ID tag above.

Since collars and ID tags can fall off, have your veterinarian help you with another type of ID.

Fill in the missing letters on two more types of ID:

- 1) T TT _ _ on the inside of the ear
- 2) M C _ _ C H _ _ under the skin

Don't forget to check your pets' collars often. Make sure they're not too tight and won't choke your pet. Cats should wear a "breakaway" or "safety" collar in case they get caught on something.

Speak!

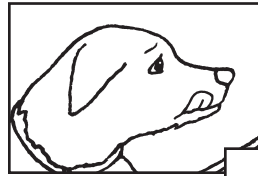

What is your dog saying?

Just like you, dogs have feelings too! Dogs tell us how they're feeling with their whole bodies. Be a "doggie detective" and watch and learn. The more we understand what they're saying, the better we can care for them and keep everyone safe.

Respect when a dog is saying "please leave me alone".

Here are some warning signs and what the dog may be feeling:

- **Ears** - flat and back = scared or unsure.
- **Eyes** - can see the white part ("half moon") of the eyes = scared or upset.
- **Mouth** - growling and showing teeth = angry. Yawning or licking = unsure. Not just tired or hungry!
- **Fur** - "spikes" or hackles up = scared or angry.
- **Tail** - tucked = scared. Held high, wagging and stiff = angry. WAGGING TAIL DOESN'T JUST MEAN HAPPY! Look at the rest of the body.
- **Body** - stiff = angry. Crouched low, lifting paw = scared. If they're leaning away or moving away from you give them space.

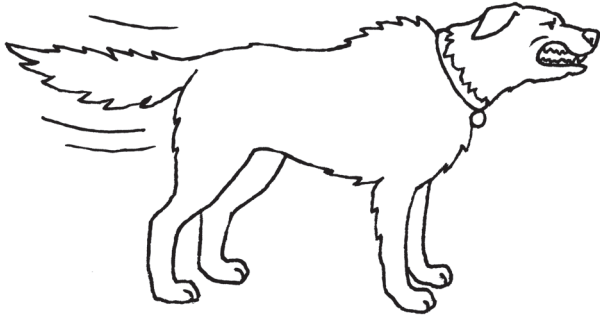

A dog that tries to bite isn't being mean or bad. They don't want to bite. They may be scared, hurt, or protecting something they love, like their family, toy, or food.

Use your new detective skills to help you with the activities on the following pages.

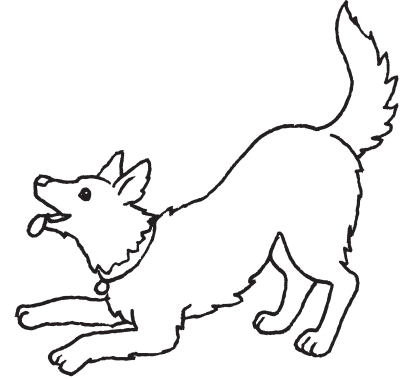

Dogs and cats learn how to "talk" from their mom and brothers and sisters. That is one of many reasons puppies and kittens **MUST** stay with their mom for at least eight weeks. They will be happy, healthy and learn good manners.

How are these dogs feeling?

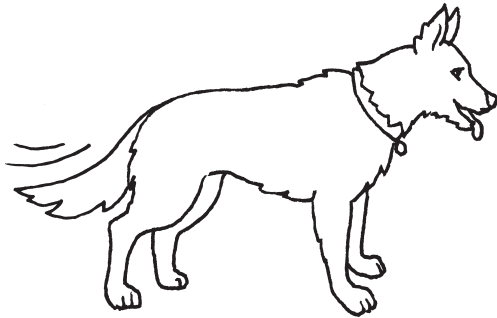

1. _____

Excited

4. _____

Scared

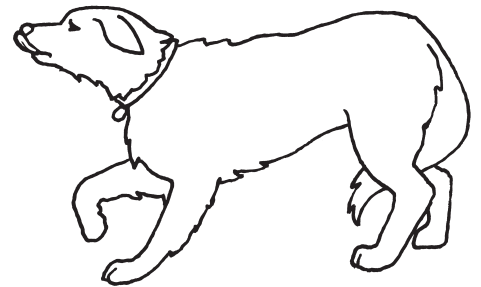

Angry

Playful

Happy

2. _____

5. _____

3. _____

Which of these dogs are saying "please leave me alone"?

1. Angry 2. Happy 3. Excited 4. Playful 5. Scared

Feline Feelings!

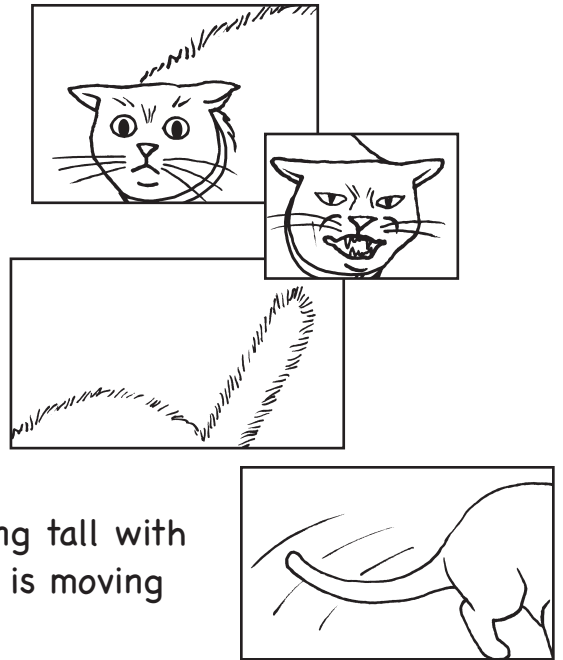

What is Your Cat Saying?

Like dogs, cats use their whole bodies to tell us how they are feeling.

Use the “cat clues” and respect when a cat is saying “please leave me alone”.

Here are some warning signs and what the cat may be feeling:

- **Ears** - flat against head = angry or scared.
- **Eyes** - open wide = scared, or narrow = angry.
- **Mouth** - hissing and showing teeth = angry.
- **Fur** - puffed up fur on back and tail = scared.
- **Tail** - flicking = angry or worried.
- **Body** - low to the ground = worried, or standing tall with back curved up in the air = scared. If the cat is moving away from you give them space.

A cat who tries to bite or scratch isn't being mean or bad. They don't want to bite or scratch. They may just be scared, hurt or trying to protect something they love - like their family.

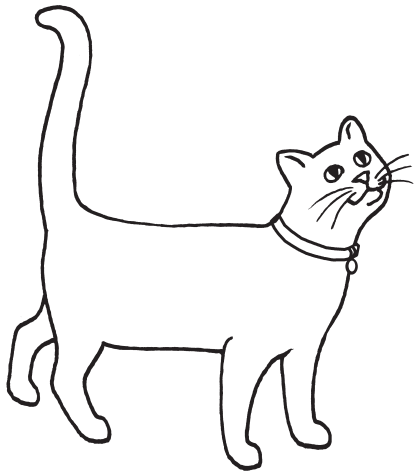

Use your new skills at reading cat clues to help you with the activities on the following pages.

Do you like it when someone tries to pull your hair or poke or tease you? Neither does your pet. If you crowd your pet, or lean over them, or try and hug and kiss them, they might feel trapped and scared. You could get bitten or scratched.

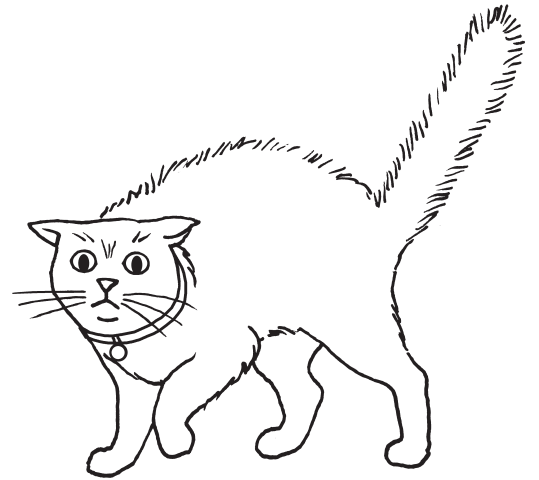

Remember - be gentle, move slowly and speak softly.

If the dog or cat stays close to you and “leans in” for more, that is a happy sign!

How are these cats feeling?

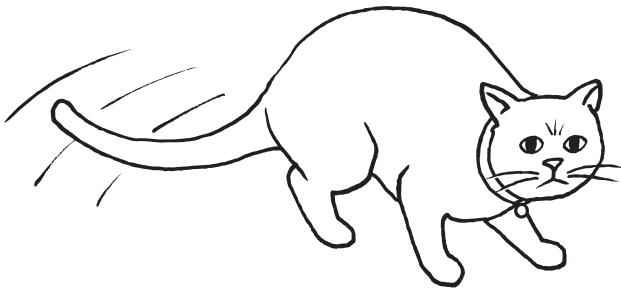

1. _____

Relaxed

Scared

4. _____

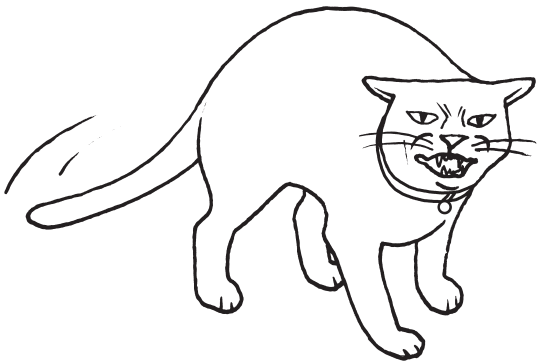

Angry

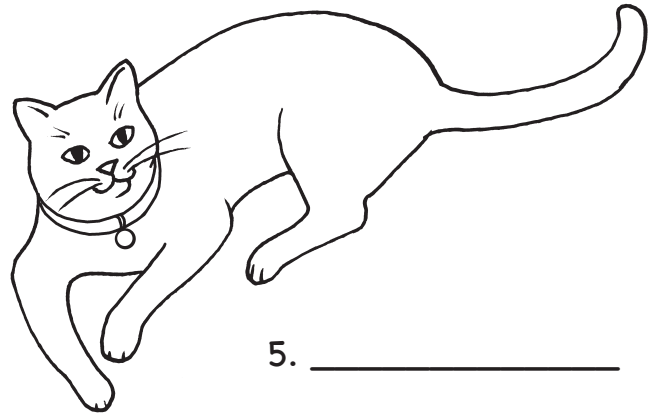

Happy

2. _____

Worried

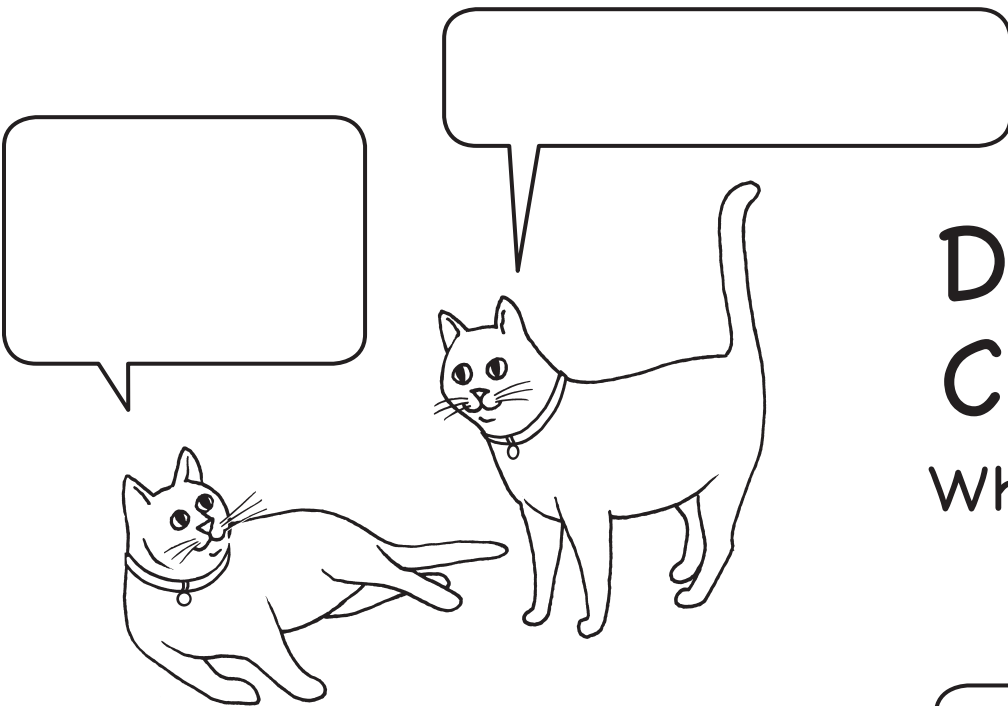

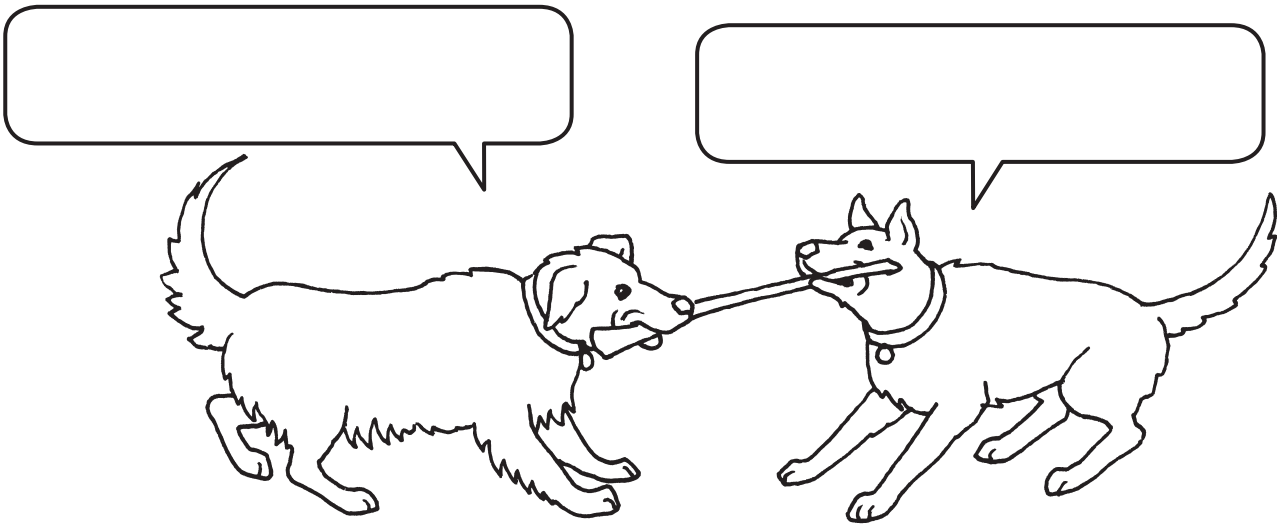

3. _____

5. _____

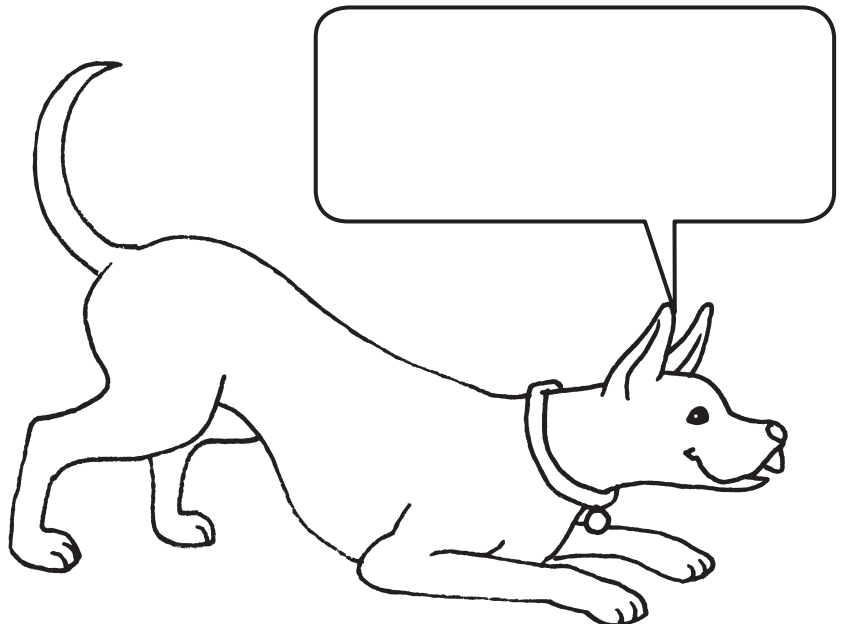

Which of these cats are saying "please leave me alone"?

1. Happy 2. Worried 3. Angry 4. Scared 5. Relaxed

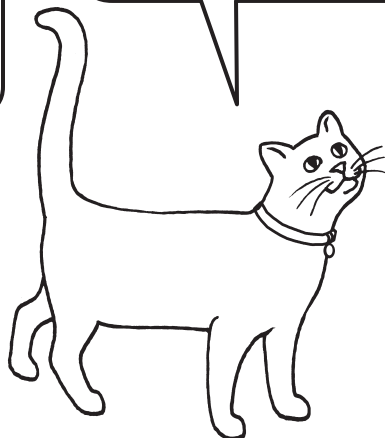

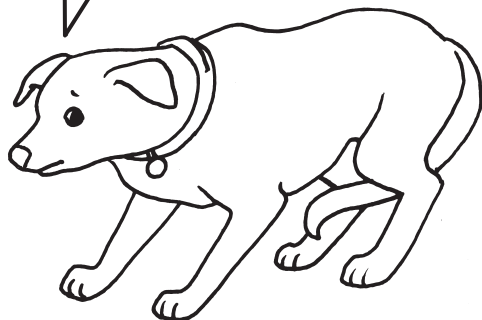

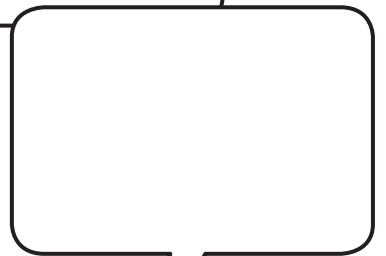

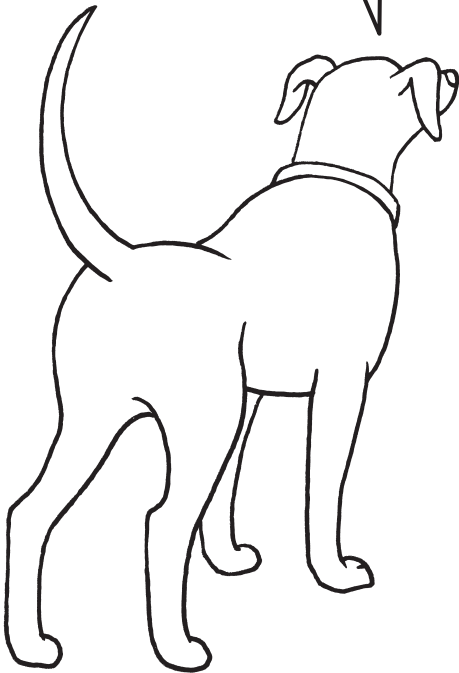

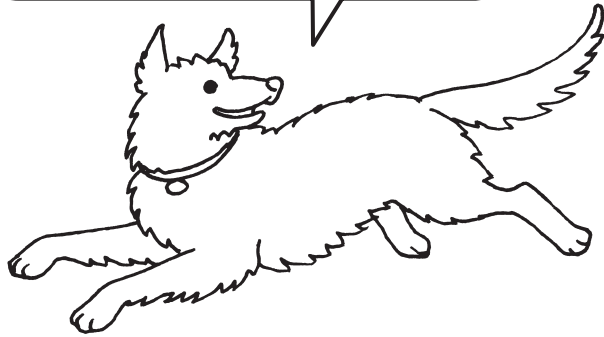

Dog and Cat Talk

What are they saying?

Try drawing your own cartoon or comic strip of dogs and cats "talking"!

Top Training Tips for Your Pet

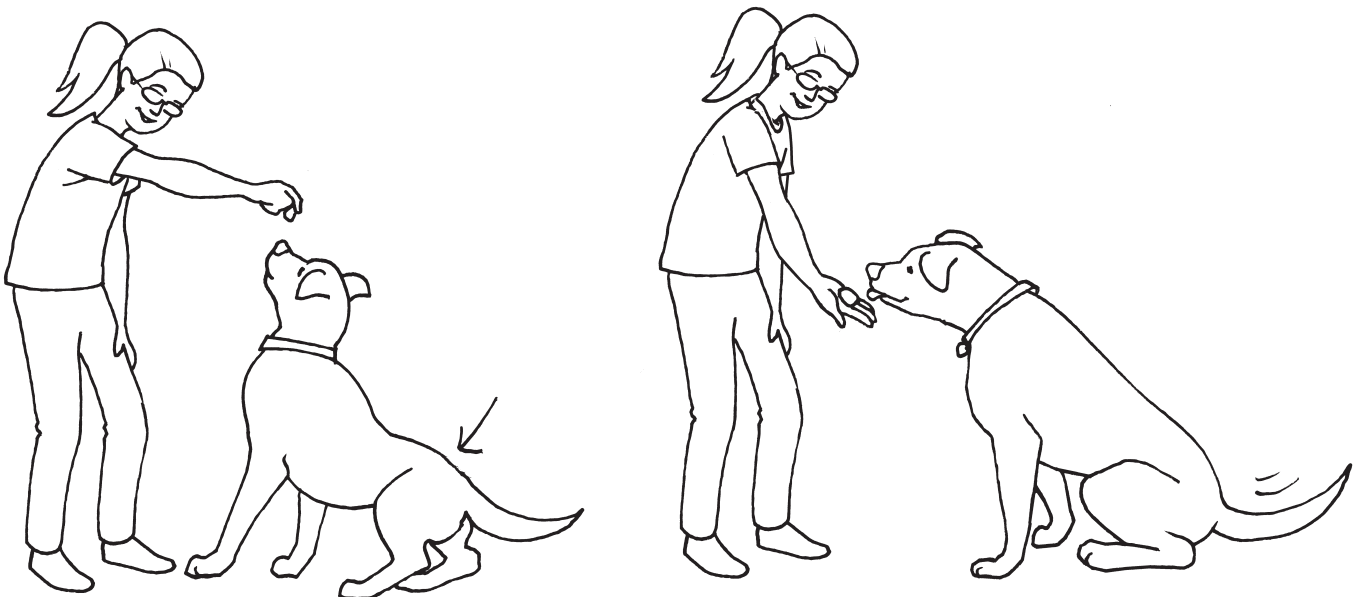

Why is training so important? Pets aren't born knowing the rules! Training keeps your pet safe, teaches manners, and helps build the bond between you and your pet.

1. Make training fun and positive
 - Keep it simple, be patient
 - Practice a few minutes every day
 - Use rewards that your pet loves most - yummy treats, toys, kind words, gentle touch
2. Get the whole family involved
3. Reward quickly - your pet needs to know what they did right!

Teach your Dog OR CAT to "Sit" and "Shake a Paw"!

SIT

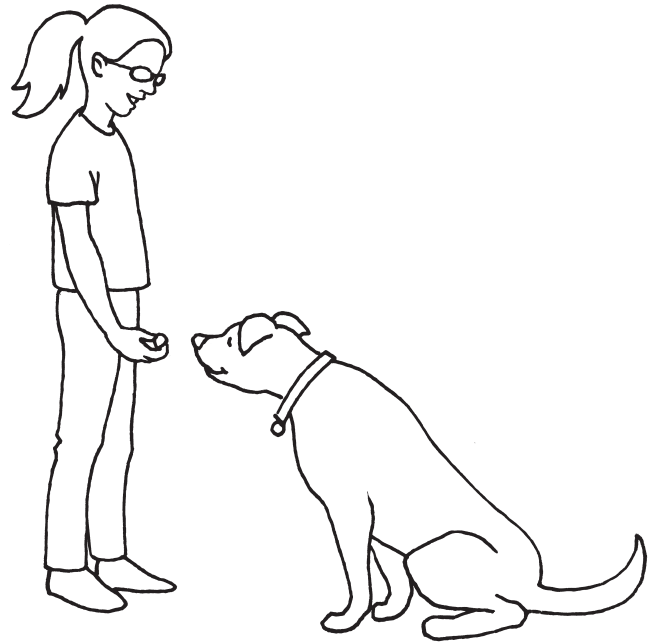

1. Hold a treat just above your pet's nose and say "sit" as you move the treat back toward their ears. If your pet tries to jump or stand to reach it, you're holding it too high.
2. Your pet will try to keep an eye on the treat and lower their bum. When they drop their bum to the ground - say "good!" or "yes!" in a happy voice and give them the treat right away.

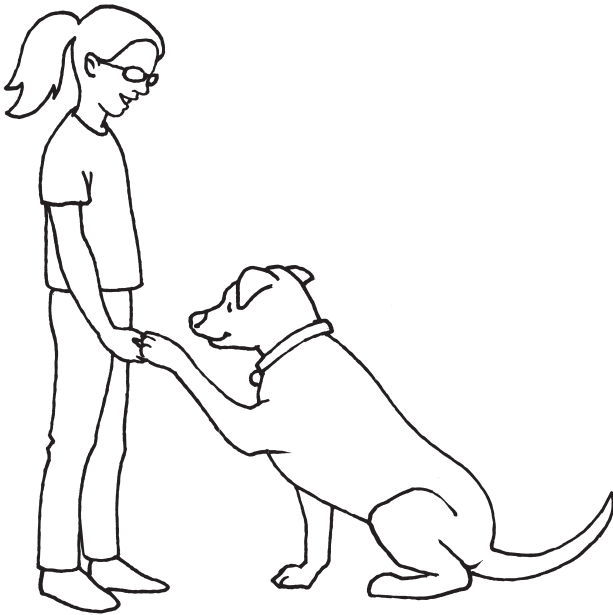

SHAKE A PAW

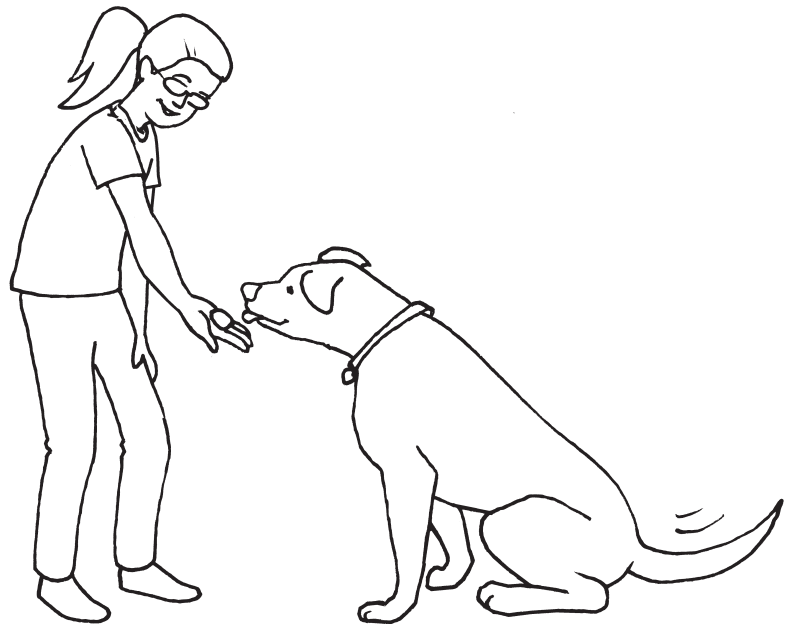

1. Have your pet "sit".

2. Show your pet another treat and then close your hand over it. Wait for your pet to paw at it while you say "shake a paw".

3. The moment your pet touches your hand with their paw say "good!" or "yes!" in a happy voice and give them the treat.

Remember, be patient, be consistent, keep it fun!

What is this boy asking his dog to do?

1. _____

Down

Come

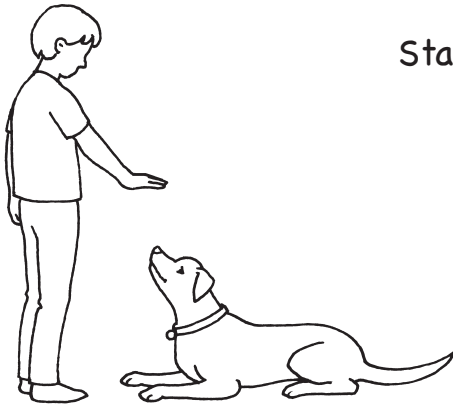

Sit

Heel

3. _____

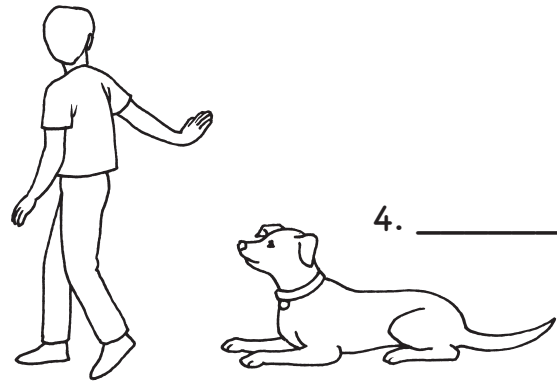

2. _____

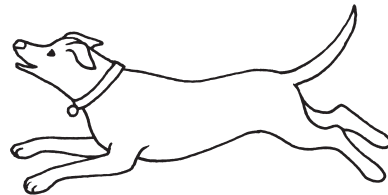

Stay

4. _____

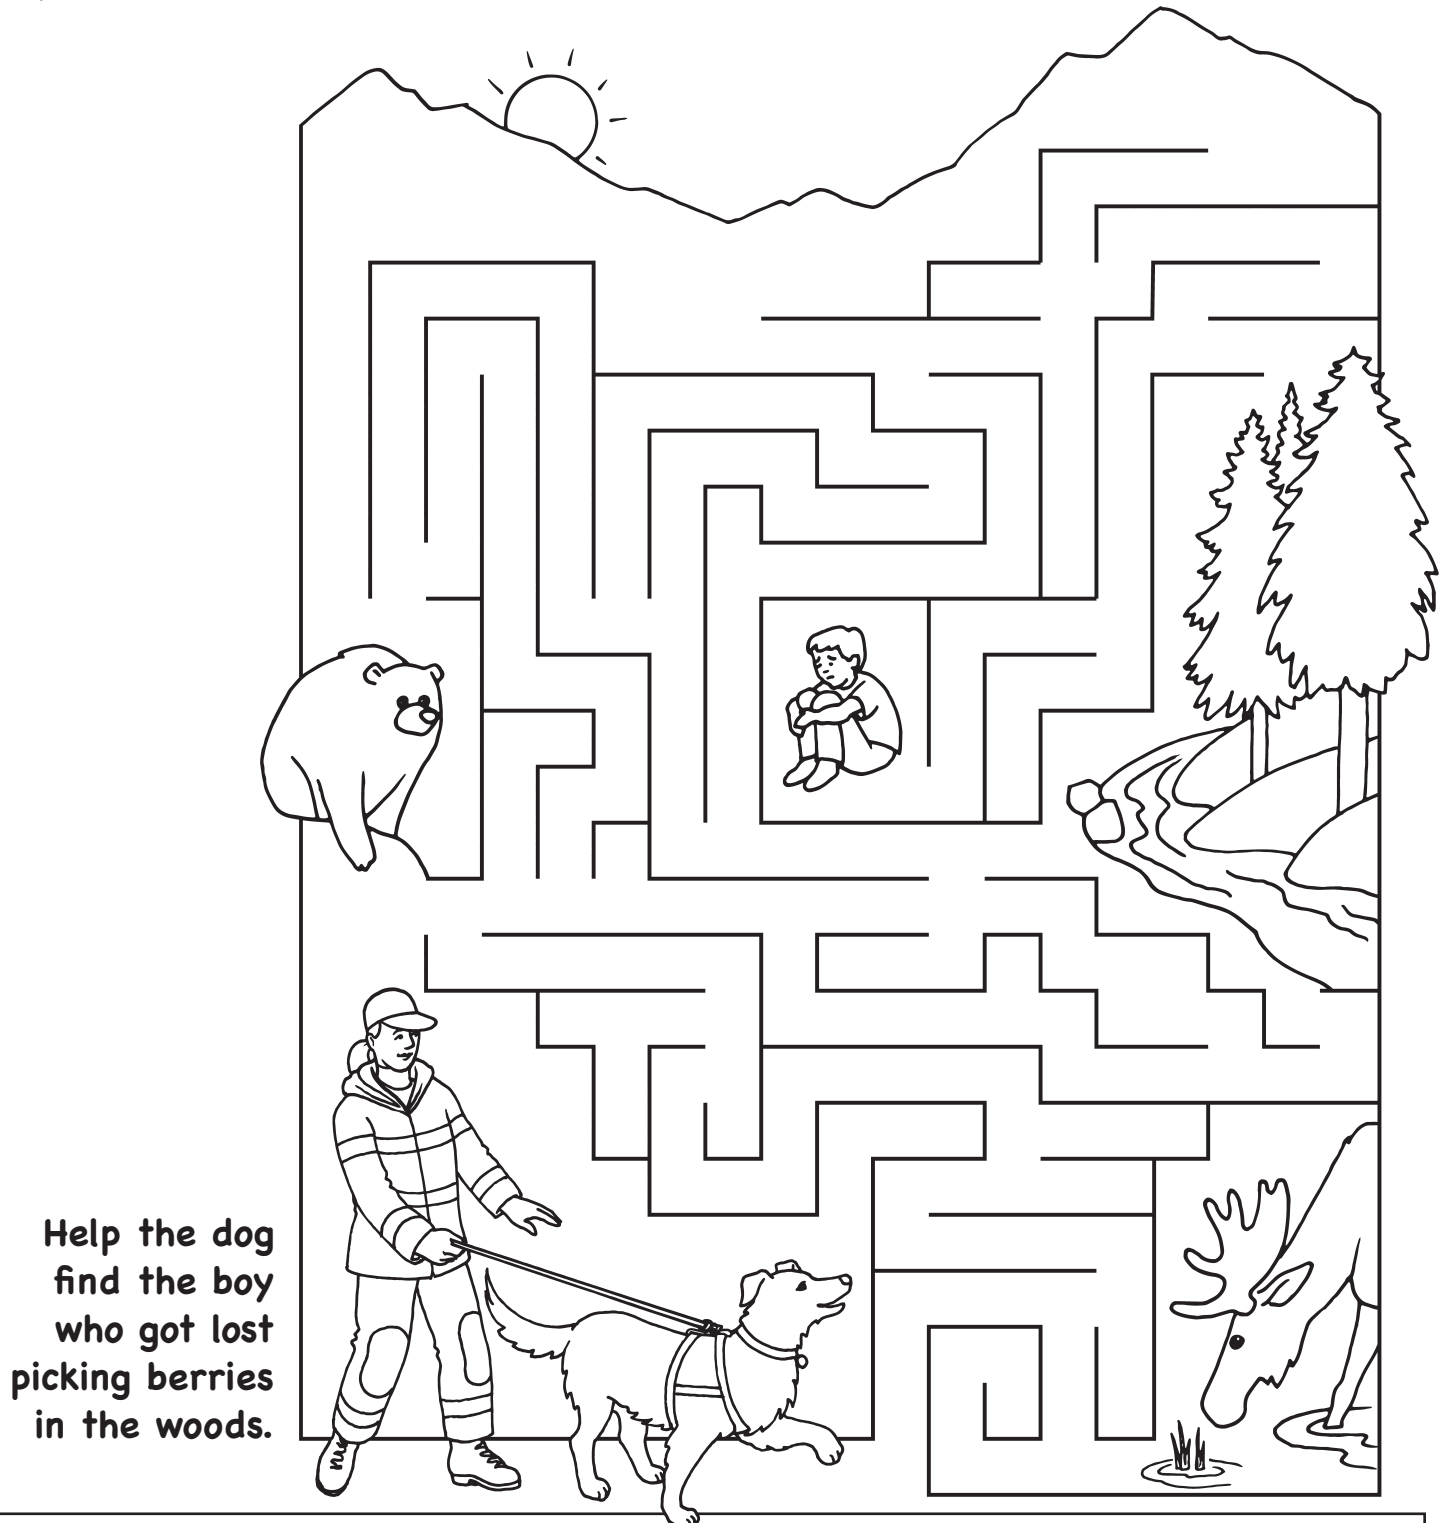

5. _____

Training using treats, kind words and gentle touch is a fun way to spend time with your dog. It keeps everyone happier and safer.

Dogs with Jobs

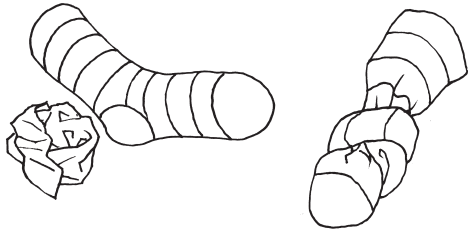

Some dogs get special training. Sled dogs and pack dogs are still trained for their traditional jobs. Some dogs work with people who need extra help. The dog below helps in search and rescue.

Help the dog find the boy who got lost picking berries in the woods.

Can you think of other important jobs dogs and cats have?

Cat Toys You'll Enjoy and Dog Treats You Can Eat

Kitty Sock Toy

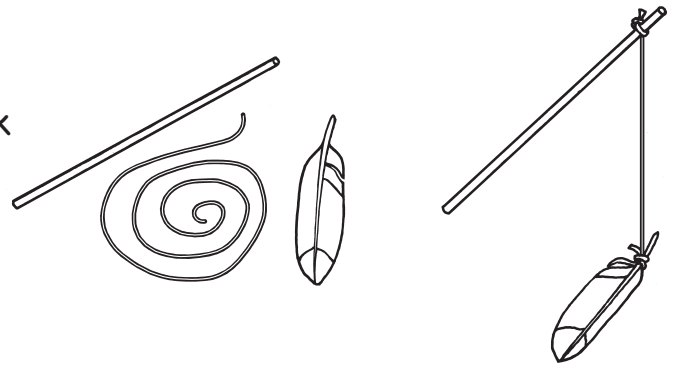

Old sock • Piece of crinkly, noisy paper

Crumple the piece of paper and shove it down into the toe of the sock. Tie a knot in the middle of the sock. (Option: add catnip or draw a face on the sock.)

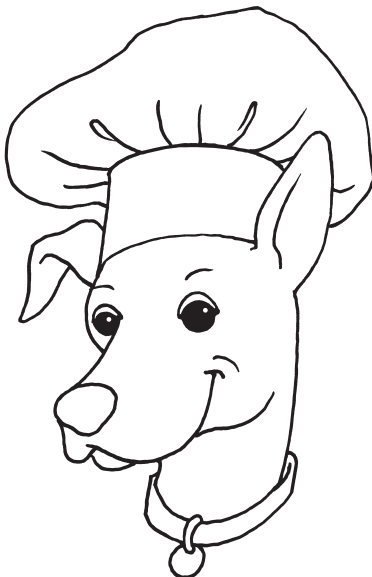

Fantastic Feline Feather Toy

Feather • Cloth ribbon or thick string • Stick

Tie one end of the ribbon or string to the feather. Tie the other end of the ribbon or string to the end of the stick.

Using toys to play with your cat keeps you from getting scratched. Proper materials keep your cat safe, happy, healthy and having fun.

Pea-Mutt Butter Treats

1/3 c peanut butter (Remember, no Xylitol, read that label!)

1/3 c oats

1 Tbs water

1 Tbs honey

A pinch of cinnamon and salt

Mix the peanut butter, water and honey.

Mix in the oats, cinnamon and salt and make a dough.

Roll the dough into balls that are ready for you and your lucky pooch to enjoy!

Simple Sweet Pup-Tater Chews

1 sweet potato

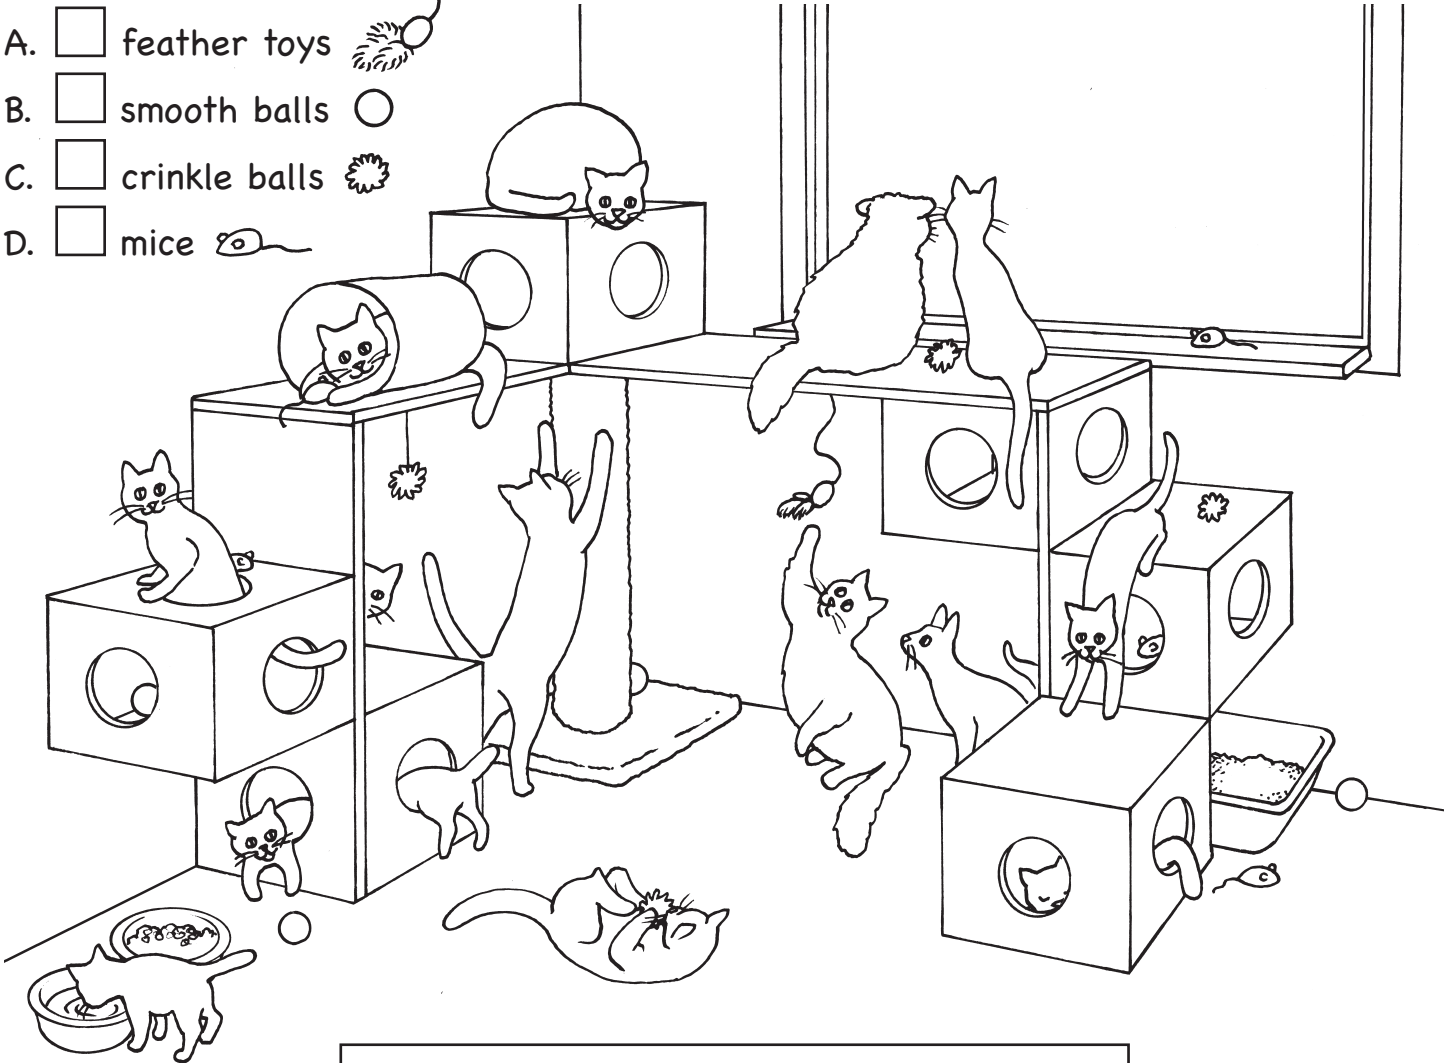

Get an adult to help you chop a sweet potato into bite-sized pieces.

Place the pieces on a cookie sheet and cook at 250 degrees F for 2 - 3 hours.

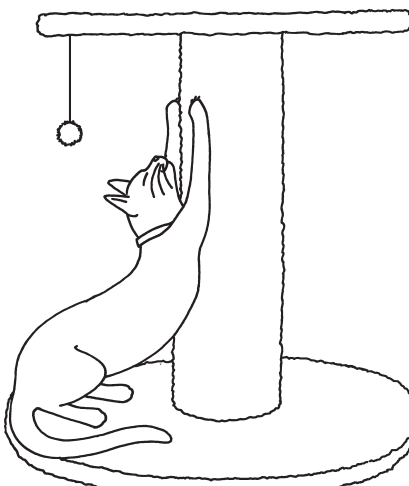

Find the Cat Toys

How many did you find?

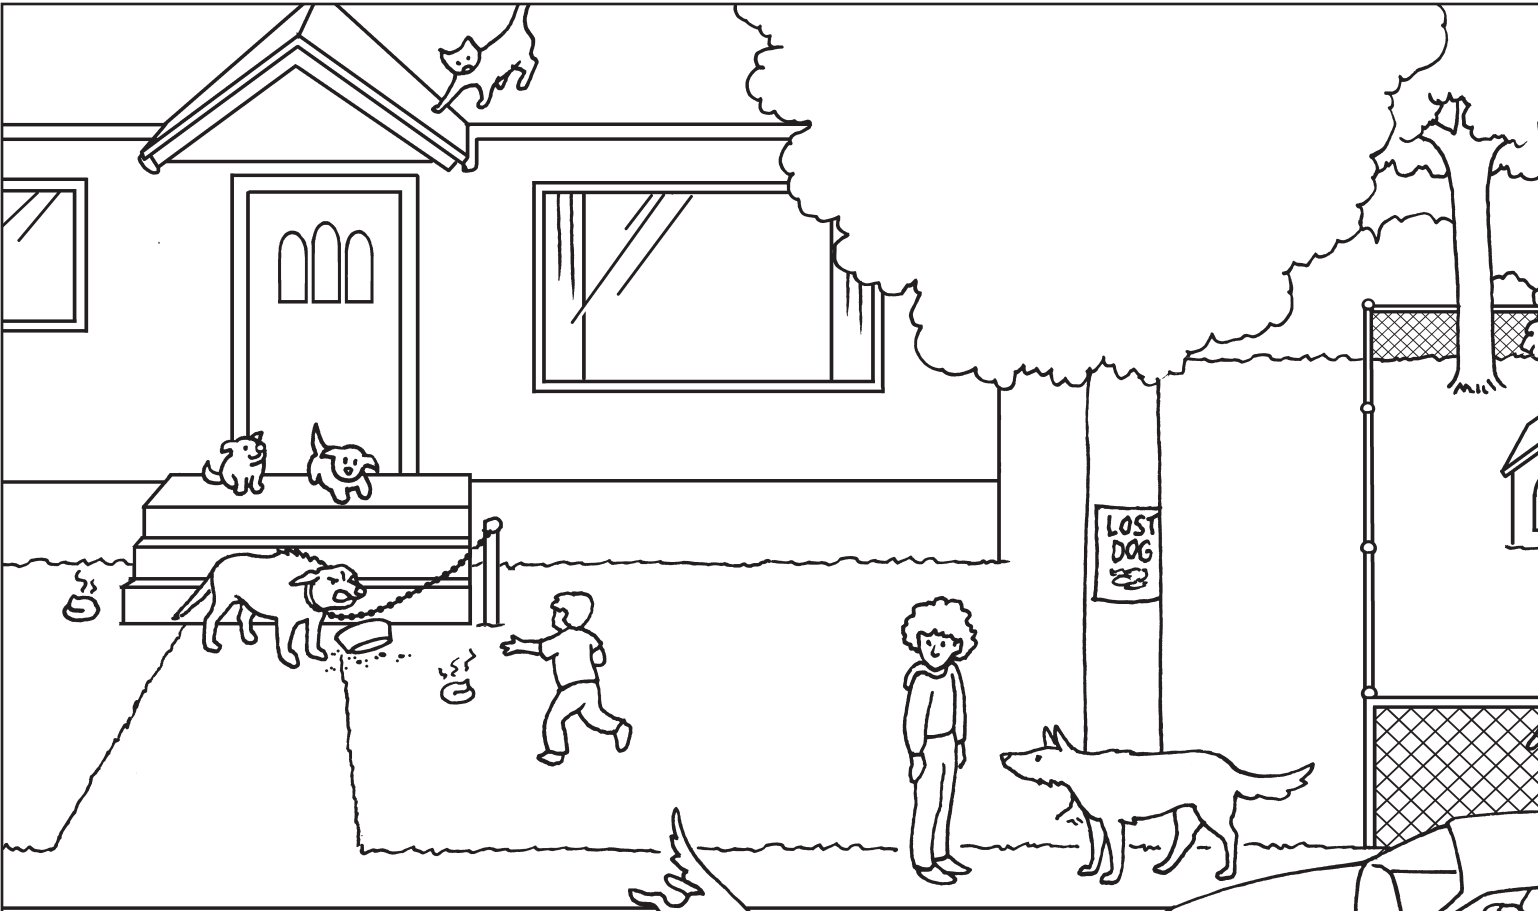

- A. feather toys 
- B. smooth balls 
- C. crinkle balls 
- D. mice 

Are there enough toys for all of the cats?

Scratching is natural for cats. It helps them to keep their claws in good shape. It gives them exercise and helps them feel relaxed. Giving your cat a scratching post keeps everybody happy. The cat can scratch the post and not your family's house and furniture!

Safe? Unsafe?

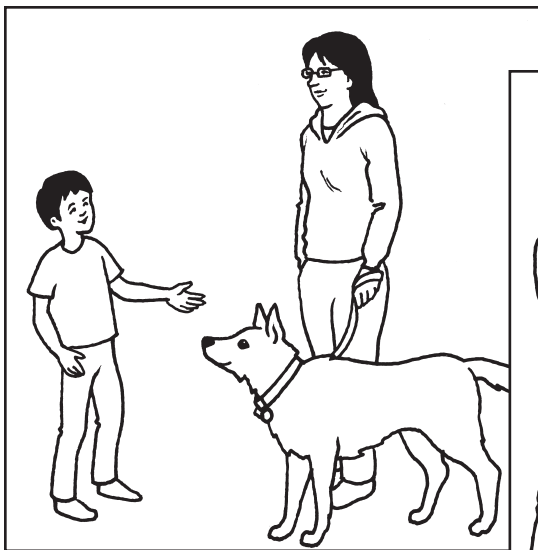

On these pages there are things that are safe and unsafe.

Circle the unsafe things in red.

Colour the rest of the picture.

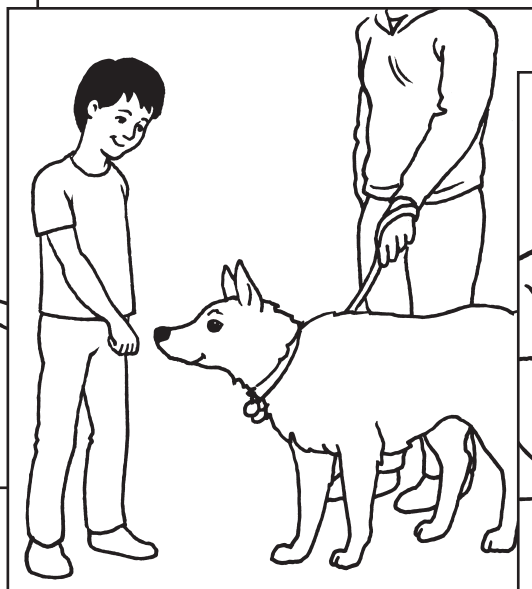

What would you do to keep everyone safe, happy and healthy?

ABCs of Meeting a Dog

Get your parent's OK, stop a safe distance away.

Ask "May I pet your dog?"

Be sniffed.

Sniffing is a doggie handshake.

Chin or chest is the safest place to pet.

Meeting a Dog Song

(Sing to the tune of Twinkle, Twinkle Little Star)

If the guardian says you can	(nod head)
Let the doggie smell your hand	(fold hand, palm down, near your side)
Pet him gently on the chest	(petting motion)
That is what he likes the best	(petting motion)
If the guardian you don't see	(looking side to side, shake head)
Do not pet him, be a tree!	(stand like a tree)

Adapted from Carol Everett at the Kauai Humane Society

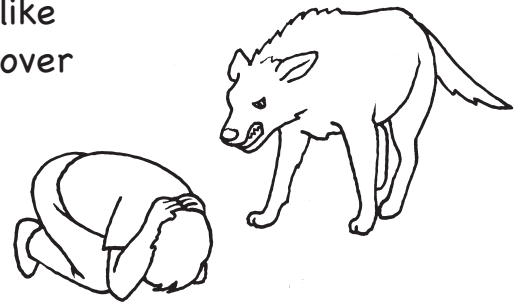

Stand Like a Tree

What if a loose dog you don't know rushes up to you? How do you stay safe?

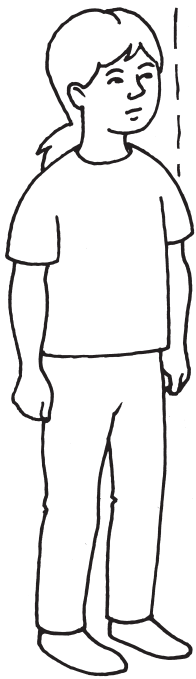

Don't run. Dogs love to chase!

Don't stare at the dog, this can make the dog feel threatened.

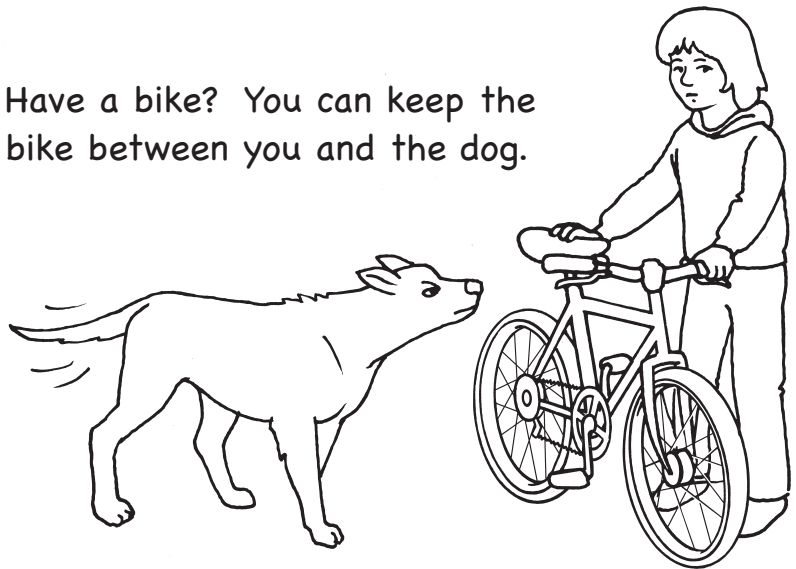

Knocked down by the dog? Curl up like a rock. Face down, hands and arms over your neck and ears.

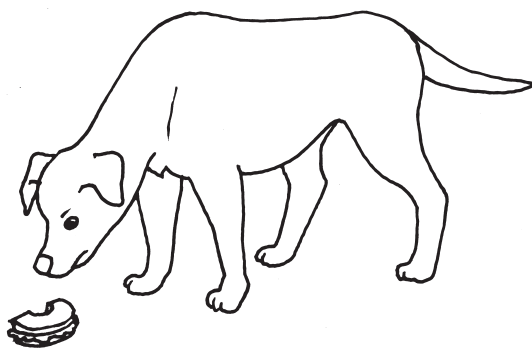

Stand still like a tall tree, arms down by your side.

Have a bike? You can keep the bike between you and the dog.

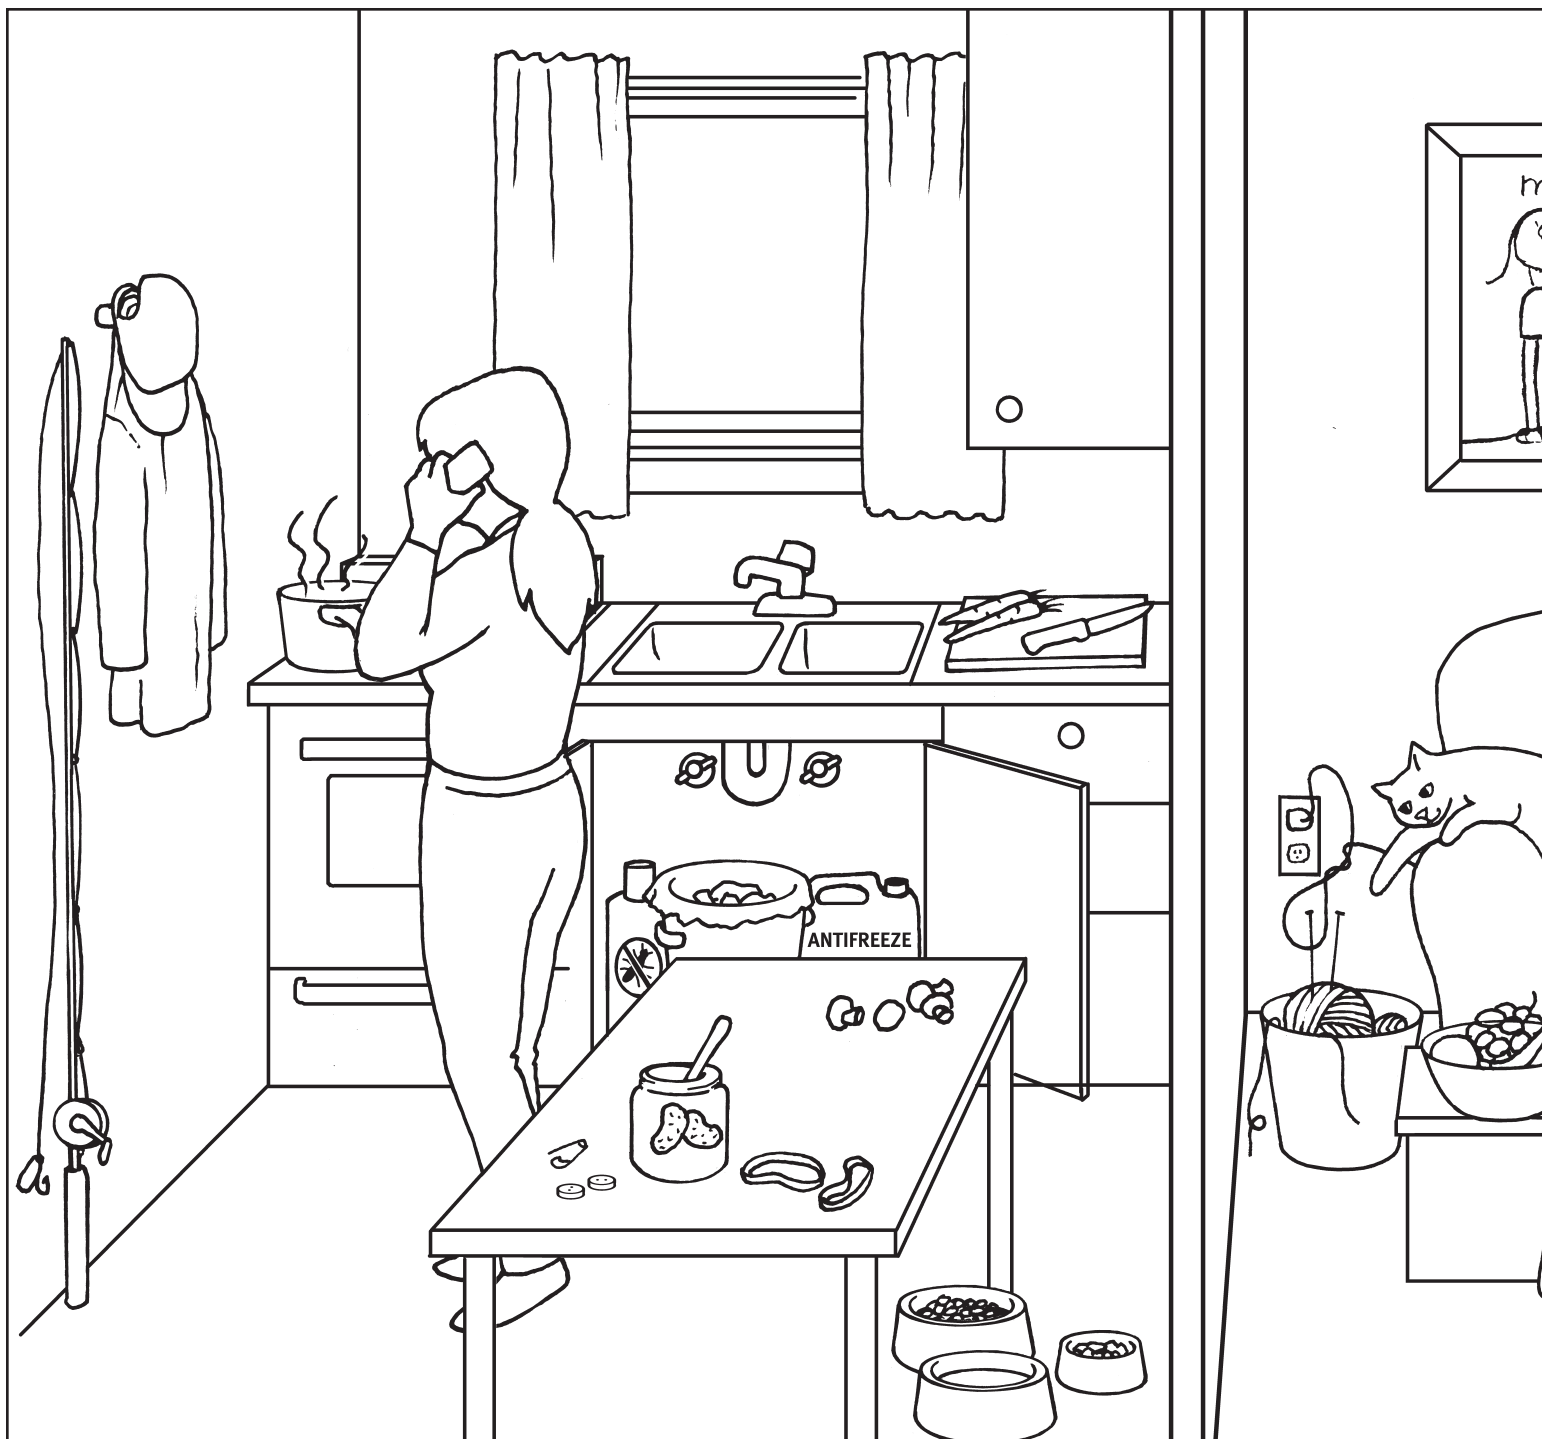

Eating something? Carrying a bag? Toss it away from you. That will give the dog something to sniff.

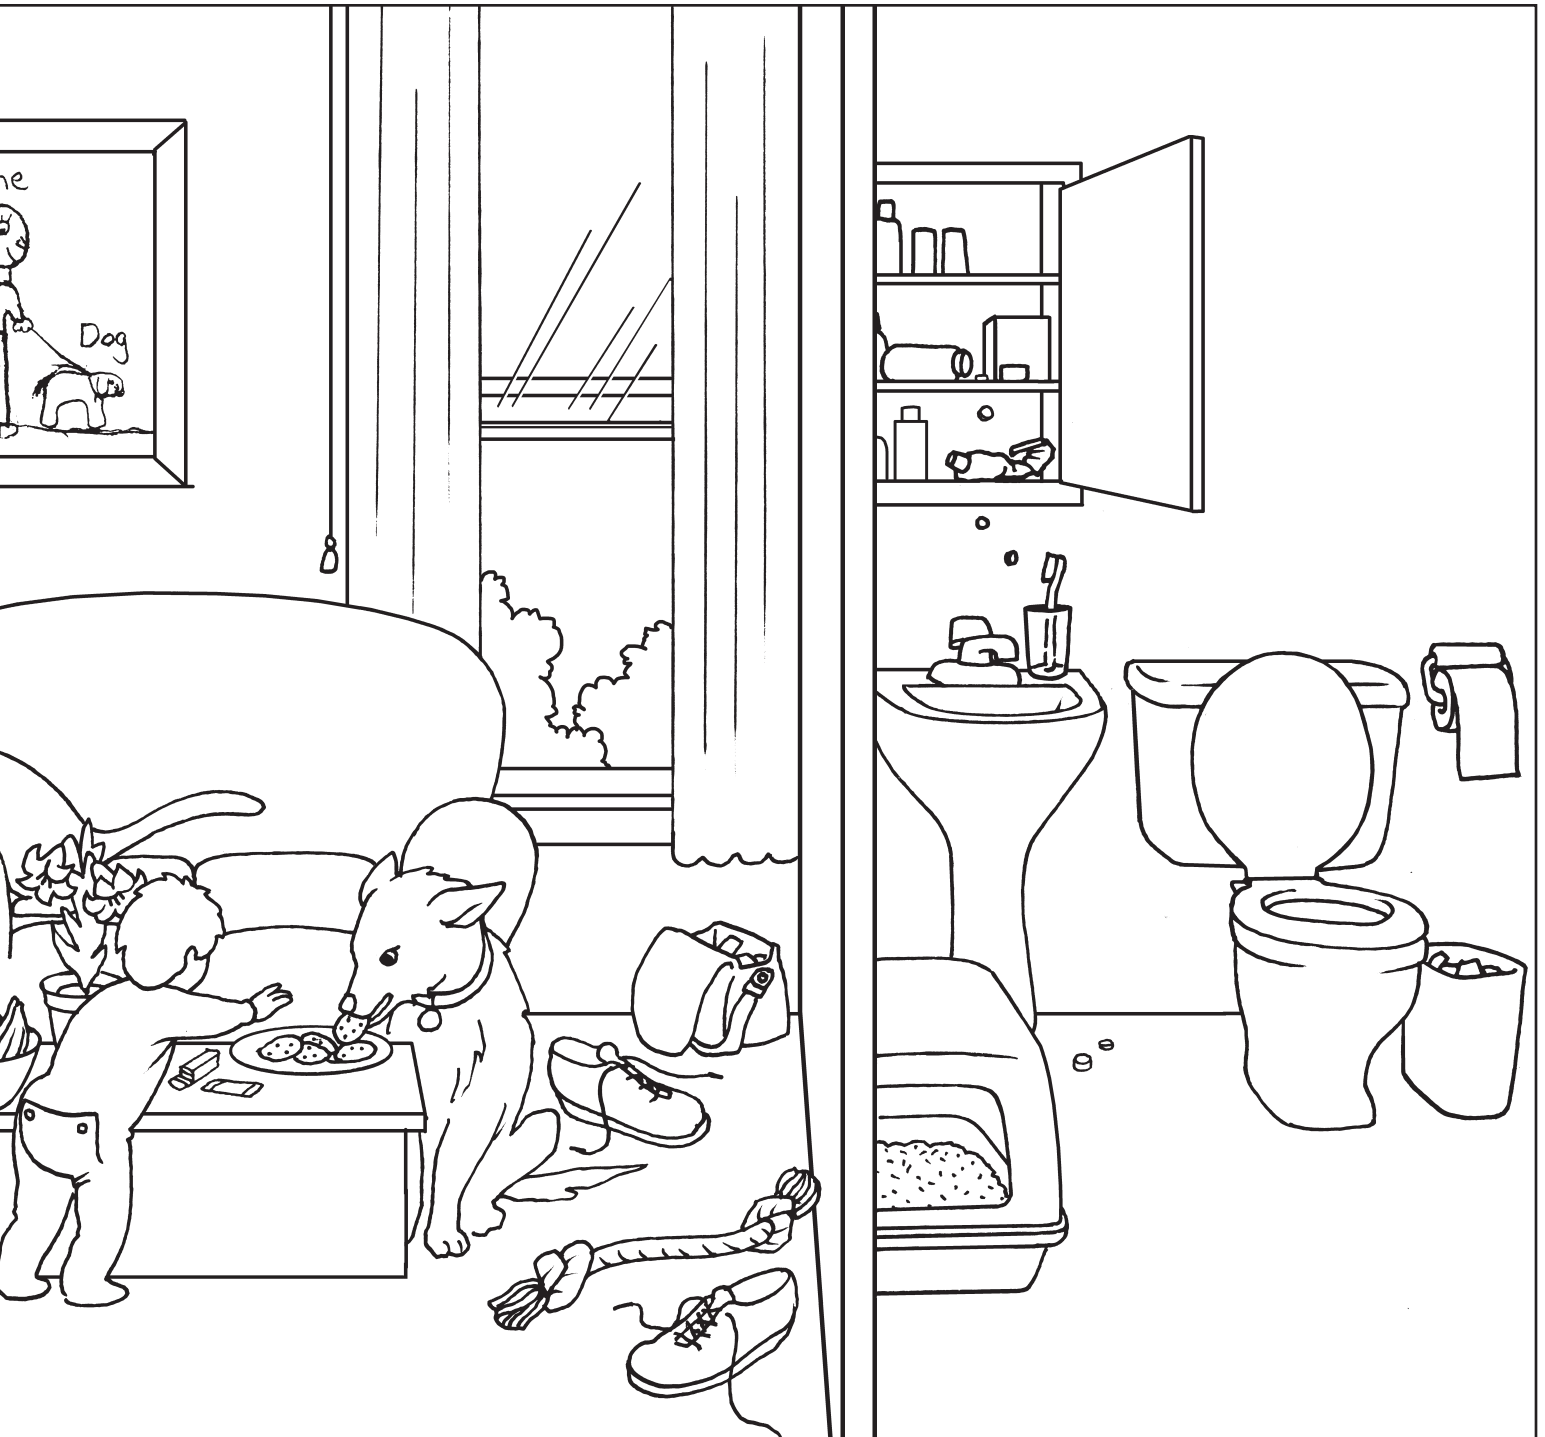

When the dog gets bored and goes away, go find help.

It can calm your own dog if you stand like a tree when they're getting too frisky!

Household Hazards

What would you do to keep everyone safe, happy and healthy?

On these pages there are things that are safe and unsafe.

Circle the unsafe things in red.

Colour the rest of the picture.

Spaying and Neutering

There are not enough loving homes for all the puppies and kittens in the world. To keep pets from having babies, a veterinarian does an operation on the pets. The operation is called spaying for female pets and neutering for male pets.

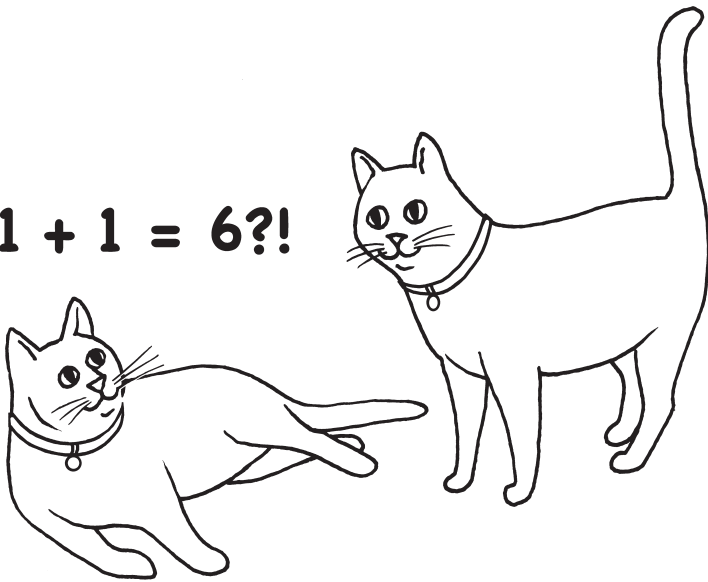

Lia wants to get her dog Moose neutered. Help her find the path to the vet clinic! **Colour the boxes that are true, and make a path for her.** You can go side to side and down, not diagonally. Stumped? Check the hint at the bottom of the page!

<p>START</p> 	<p>Spaying and neutering help dogs and cats live longer and healthier lives.</p>	<p>The operations keeps pets from getting certain kinds of cancer.</p>	<p>Neutering cats makes them less likely to spray and mark their territory.</p>
<p>It's better for pets to have one litter before being spayed.</p>	<p>Animal shelters are able to find homes for all the pets they receive.</p>	<p>It's too expensive to have pets spayed or neutered.</p>	<p>Having pets spayed or neutered will help solve the pet overpopulation problem.</p>
<p>Neutering pets makes them less likely to get into fights.</p>	<p>Neutering will not change a pet's basic personality.</p>	<p>Pets who have not had the operations often have more behaviour problems.</p>	<p>Spaying and neutering operations make pets better companions.</p>
<p>Communities spend lots of money taking care of unwanted dogs and cats.</p>	<p>Pets will get fat and lazy after they've had the operation.</p>	<p>It's okay for my pet to have a litter if I find homes for all the babies.</p>	<p>Pets who have been spayed or neutered are often more likely to bite.</p>
<p>Neutering makes pets less likely to roam or run away.</p>	<p>Pets can have the operations as young as eight weeks of age.</p>	<p>Veterinarians can tell you the best age for your pets to have the operation.</p>	<p>END</p> 

Hint: The boxes that have an even number of words (18, 10, 12, or 14 words) are true.

It's Raining Cats and Cats!

1 + 1 = 6?!

There are too many cats and not enough loving homes. Why? Kittens can have kittens. They can start at five months old and have up to three litters each year.

Do the math! How many kittens are born in one year from one mama cat?

Mittens has a litter of 6 kittens (3 female, 3 male) in spring. The kittens born in the spring can have their own litter of kittens later in the year.

Mittens has another litter of kittens (3 female, 3 male), in fall. Those kittens will be too young to have a litter of kittens by the time the year is over.

A. How many kittens does Mittens have in one year? ____ + ____ = ____

Mittens' 3 daughters that were born in spring have their OWN litters of 6 kittens each.

B. How many kittens do Mittens' daughters have this year? ____ × ____ = ____

**C. How many kittens altogether do Mittens and her daughters have this year?
____ + ____ = ____**

D. Bonus Question: How many kittens would be born in year two?

Hint: it is like having 16 "Mama Mittens" in year two. _____

How can you stop it from "raining cats and dogs"?
Spay and neuter your pets – problem solved!

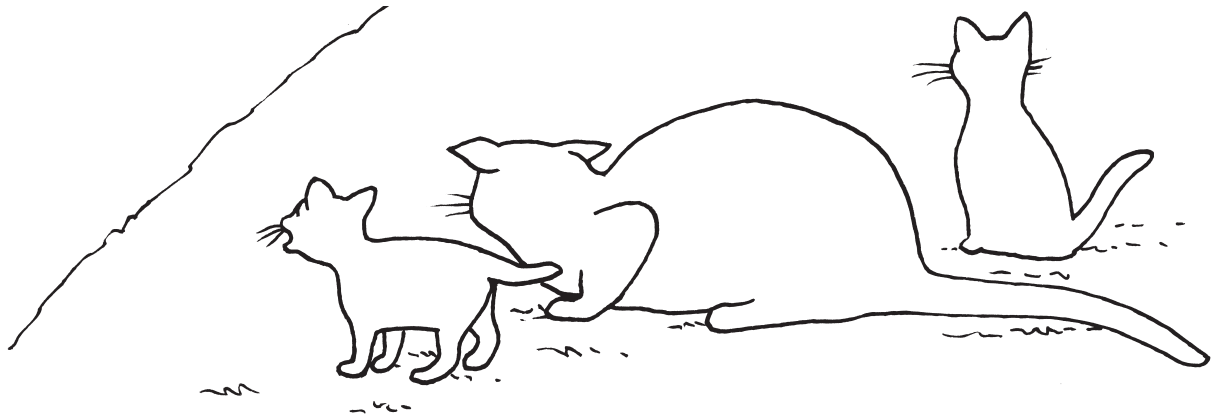

Answers: A. 12 B. 18 C. 30 D. 480

Abandoned Family of Cats!

Breed all about it!

Write a news story about these abandoned cats.
Remember the 5Ws (Who, What, Where, When, Why)

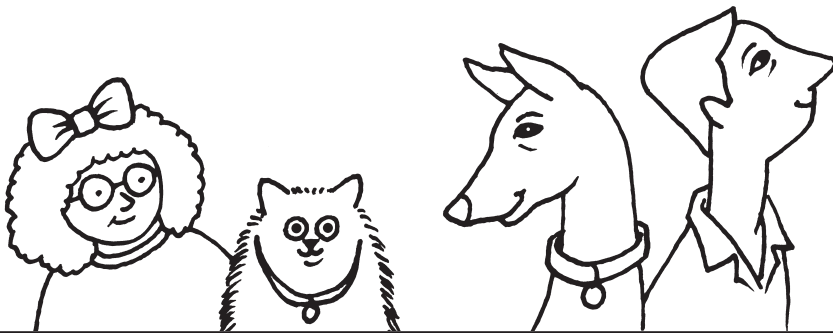

Cats that you see in the bush are not wild animals. They may be abandoned, stray, or feral cats. **Abandoned cats** are left behind by the family they love. **Stray cats** had a home but are lost. **Feral cats** have lived so long outside that they've become scared of humans. All these cats are **community cats**. They need us.

Meet Your Match, and Save a Life!

Remember, when you adopt, you're a superhero. You save a life! Rescue groups help pets find forever homes with new adopted families. They want loving homes for loving pets, not just to make money like pet stores, puppy mills and backyard breeders.

Why do pets lose their homes? Rescue groups hear a lot of stories. "My dog is out of control." "My cat poops on the floor." "My new landlord doesn't allow pets." "I have too many pets." "They got too big." "I can't find homes for all the puppies." "They cost too much." "They're not cute anymore." Now that you know how to make a good forever home, choose a good match when it's time to adopt your next pet!

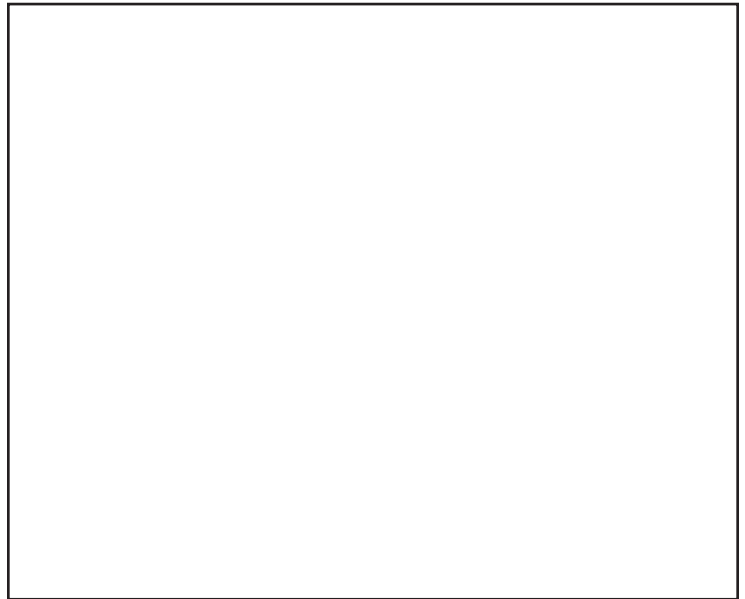

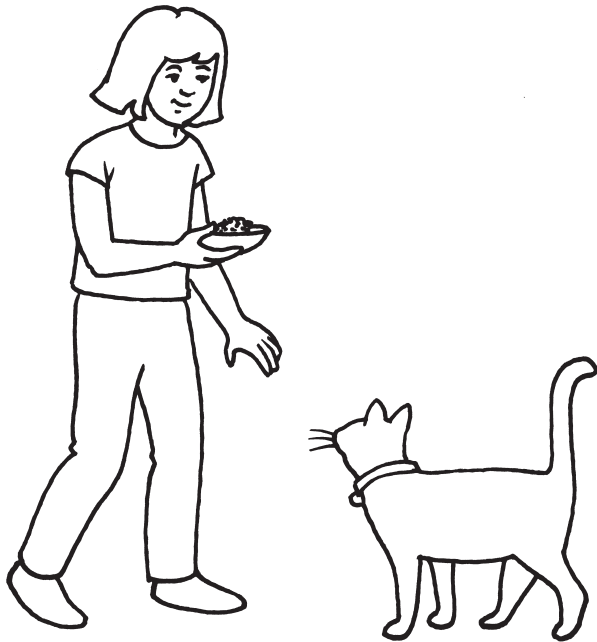

Match each pet with the family that could give them a forever home.

Pets who Need Forever Homes	Families Looking for Pets
<p>a. Oliver is a small 2 year old dog. He is silly and fun! He wants to go everywhere and play with everyone - people and pets.</p> <p>Family: _____</p>	<p>The Quiet Family are looking to adopt a loving pet who wants to play a little with their older kids, but mostly wants to snuggle up to them when they read.</p>
<p>b. Mia is a medium-sized 9 year old dog. She is happy and cheerful but has a few aches and pains. She would love a home without other pets.</p> <p>Family: _____</p>	<p>Mr. and Mrs. Happy live in an apartment that allows pets. They are gone all day, but when they get home, they are happy to settle in for quiet evenings of cooking and board games.</p>
<p>c. Socks is a 13 year old cat. This fluffy cat is a lazy love bug! He is happy to lie by his family's side and keep them company.</p> <p>Family: _____</p>	<p>The Outdoor Family is a loving bunch looking for a lively pet. The kids enjoy mountain biking and playing fetch with their rescue mutt Lucky. Their landlord allows dogs but not cats.</p>

ANSWERS: A) OUTDOOR FAMILY B) QUIET FAMILY C) MR. AND MRS. HAPPY

It's Cool to Be Kind!

Write or draw about your kindness to others.
I am kind to people and animals when I...

What if you see a dog or cat in need? What if their ribs show and you know they're hungry? Or someone is being mean to them or abandoning them?

Or maybe you see a dog that is tied all of the time, lonely, sad and scared?

Stay safe and don't try to help on your own! Tell an adult you trust.

They can talk to the police or someone else to get help.

Colour and cut out these bookmarks.

 Cut out the bookmarks on dotted lines.

Should I Pet a Dog...

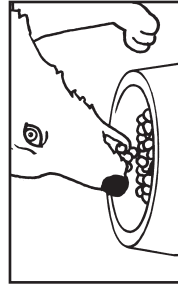

...who is behind a fence or in a car?

...who is on a chain?

...who is too excited?

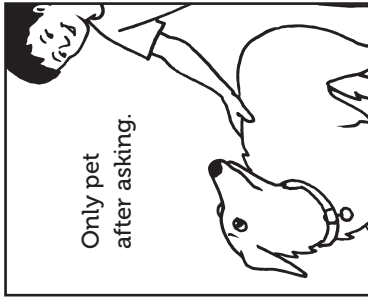

...who is eating?

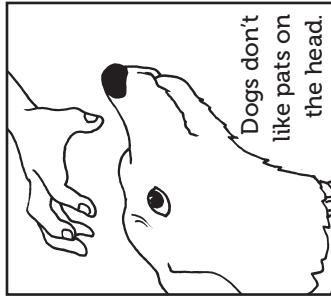

...who is hurt?

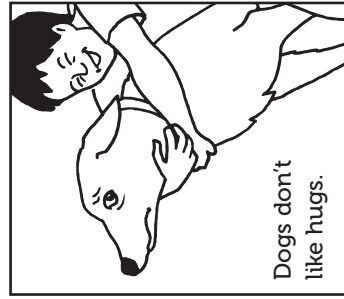

Stay Safe Around Dogs

Only pet after asking.

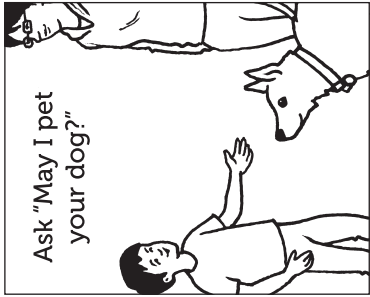

Dogs don't like pats on the head.

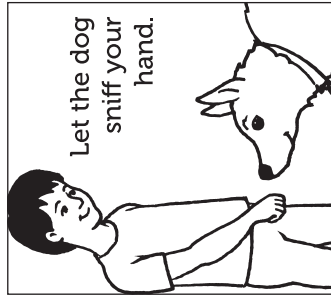

Dogs don't like hugs.

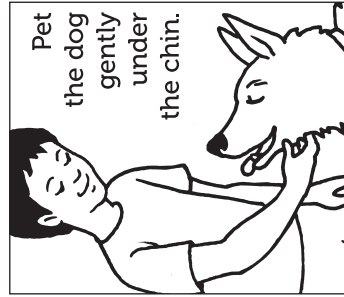

Meeting a Dog

Ask "May I pet your dog?"

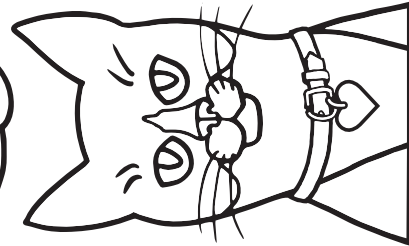

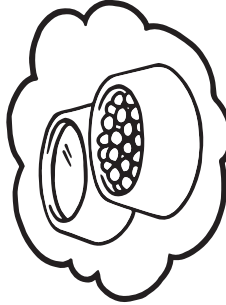

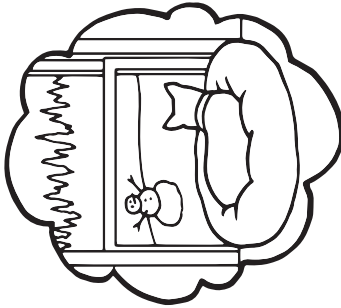

Let the dog sniff your hand.

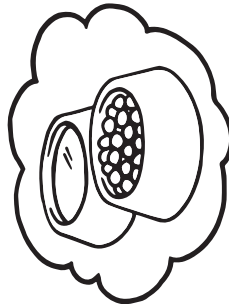

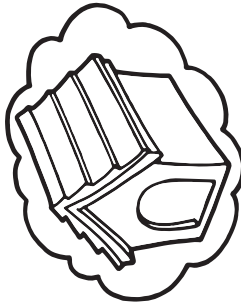

Pet the dog gently under the chin.

How to Draw Cats and Dogs

Practice drawing in the boxes below.

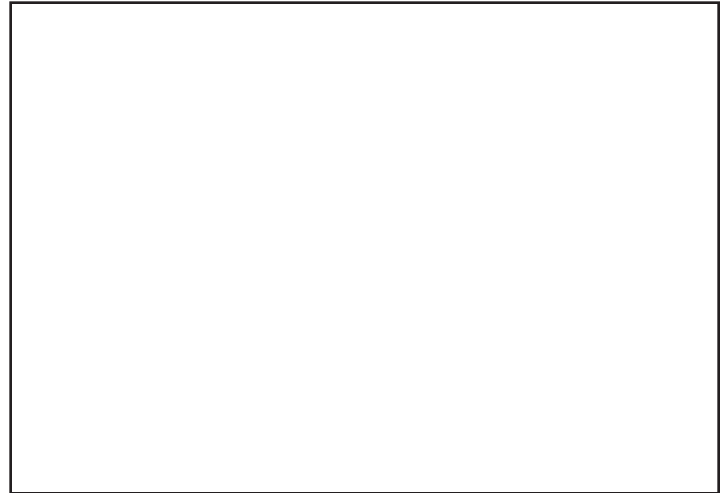

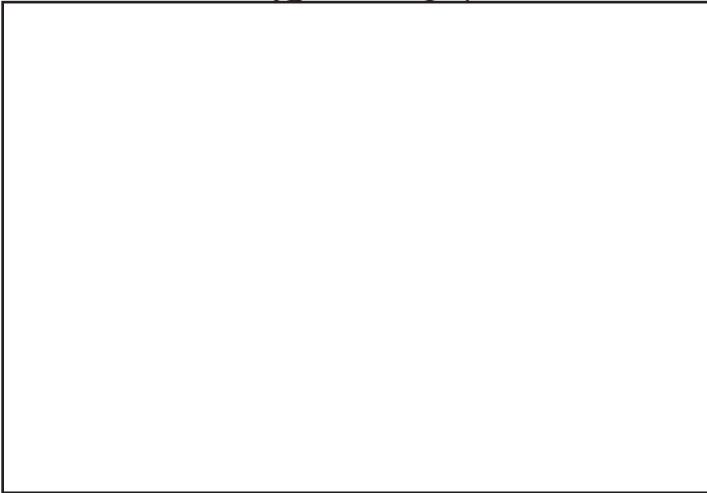

There's a New Superhero In Town

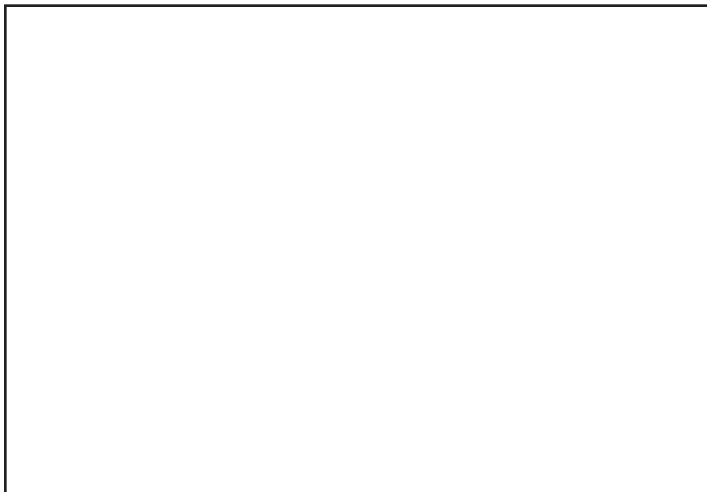

Some superheroes can fly, some are super strong or fast! If you wanted to help animals in need, what would your super powers be? Would your pet be your sidekick - maybe Captain Hairball or Dr. Slobber? **Complete the cartoon below.**

THE ADVENTURES OF

1. Help! Draw an animal in need. Cat in a tree? Dog falling through ice on a pond?

2. Just in time! Draw your arrival on the scene to help. What do you say?

3. You save the day! Draw a picture showing how you use your super powers to help.

4. Happy ending! Draw the happy animal. Everyone is cheering! What do you say?

Best Friends Forever Contract

Congratulations! You've learned all about being kind to dogs and cats. You know how to stay safe around the dogs and cats in your life.

Unscramble the words below and make a caring promise to your pets:

We will take care of _____ (names of pets).

We will give our pets everything they need for their whole lives.

Play and _____
REXIECES

Tender loving _____
ERCA

Good _____ and fresh _____
DOOF TREAW

Warm place to _____
EPELS

Collar and ID _____
AGT

Healthy _____
SERTAT

Washing and _____
GRUBSHIN

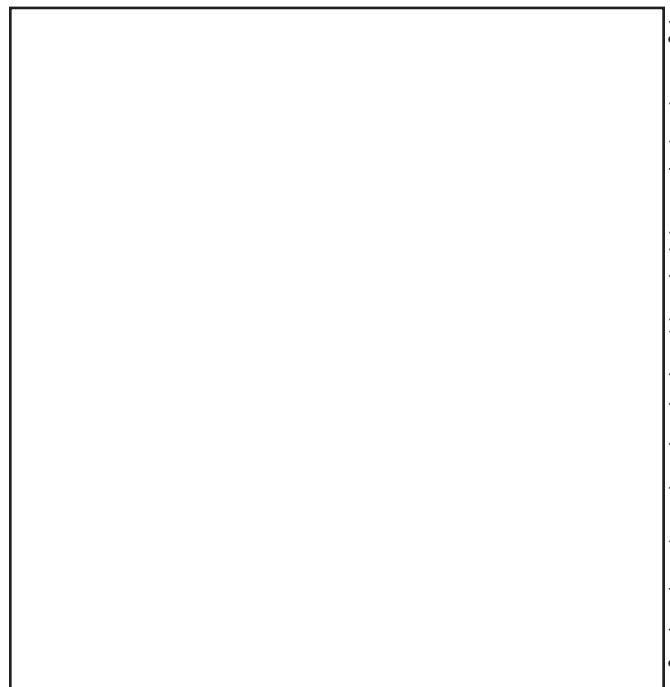

_____ to learn good manners
RINTAGIN

Visits to the _____
INERTVANIREA

_____ at home and outside
ATESYF

Draw your pet or include a photo above.

Signed by the whole family:

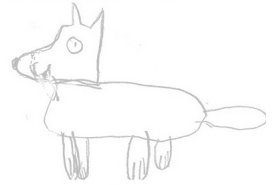

ANSWERS: exercise, care, food water, sleep, tag, treats, brushing, training, veterinarian, safety

Teach My Person How to Love Me

Visit www.lakesanimalfriendship.ca/songs/
to hear the tune of this song and sing along!

Chorus: Teach my person how to love me,
Teach my person what I need.
I'll be a faithful, furry friend forever,
We can always be together,
Teach my person how to love me.

They can be my Superhero,
Give me food and water,
A warm and cozy bed,
Where I can lay my head,
And I would love a place to run and play,
Every day.

Chorus

We'll go to see the vet,
Don't need to have a litter,
She'll give me all my shots,
And 'though I cannot talk,
They'll learn to watch and listen every day,
And know if I'm okay.

Chorus

We can be a family,
Caring for each other,
I'll be waiting at the door,
No one could love them more,
They adopted me instead of buying new,
Friends forever true.

Chorus
