

## **Animal Care and Regulation Agencies**

There are several government agencies in the greater Sacramento area that deal with animal care and regulation. In addition to licensing pets and running pet adoption programs, these agencies fill the following functions:

- Transporting sick or injured stray animals that were picked up by the animal control officers to the emergency vet
- Rescuing animals locked inside hot vehicles and from abusive, cruel, or negligent conditions
- Impounding stray dogs, whether they are friendly or aggressive, that roam freely on the street, on public property, or at a citizen's residence
- Reuniting lost pets with their owners
- Helping citizens resolve nuisance problems, such as dogs barking excessively and dogs defecating or urinating on other people's property
- Investigating dog and cat bite complaints

The following is a list of Animal Care and Regulation agencies in the greater Sacramento area.

### **SACRAMENTO CITY**
